## 50 HOUSES IN NAPA ARE FLOODED

Scores of People Moved in Boats—Outskirts of City Under 3 Feet of Water

NEAR-CLOUDBURST IN AMERICAN RIVER VALLEY

'Critical River Conditions' in Upper Sacramento Valley Are Reported

NAPA Cal., Jan. 23.—The overflow from the flooded Napa river surrounded fifty houses today, scores of persons having to be removed in boats. The railway tracks in this section are also flooded. St. Helena and Calistoga have been completely shut off from rail communication. The water is three feet deep on the outskirts of Napa.

**Almost Cloudburst**  
In the watershed along the American river, above Sacramento, the storm yesterday almost amounted to a cloudburst, and the Sacramento river is reported to have risen to 25.7 feet. At Blue Canyon the snow-fall in twenty-four hours amounted to 5.18 inches.

At Towle, 5.27 inches of rain fell and at Blue Canyon, 5.18 inches; at Colfax, 2.09 inches; at Folsom, 2.45; and at Gold Run, 3.49 inches.

**River Continues Critical**  
SACRAMENTO, Jan. 23.—River conditions will continue critical in the upper Sacramento watershed for several days, especially in the vicinity of Colusa, Meridian and Knight's Landing. The Sacramento river at Sacramento will remain stationary until this afternoon, when it will begin falling slowly. It will become moderately high in the island districts by Saturday night or Sunday. This synopsis of the Sacramento Valley situation was issued last night by N. R. Taylor, government forecaster.

**Boy Drowned**  
MARYSVILLE, Cal., Jan. 23.—Oren Woods, the 17-year-old son of Mr. and Mrs. Joseph Woods of Oren House, a small settlement twenty-eight miles northeast of here, was drowned yesterday while trying to ford Dry Creek on a saddle horse. The flood waters swept him from his saddle, and he could not swim.

**Latest Report**  
SAN FRANCISCO, Jan. 23.—Two deaths from drowning in flood waters have been reported, that of Oren Woods, aged seventeen, drowned near Marysville, and William Still near Santa Rosa. Both were swept from their saddles by the flooding river. Conditions at Napa have improved somewhat, according to the telephone. Trains were moving this afternoon.

## STREET RIOT IN TRINIDAD, COLO.

Nineteen Arrested, Including 7 Women—Mob Attempted to Rescue "Mother Jones"

TRINIDAD, Colo., Jan. 23.—Nineteen people, including seven women, are under arrest and at least five are known to be suffering from slight injuries as the result of a street riot yesterday afternoon when the militia, under the direction of Gen. John Chase, broke up a mob of strikers and strike sympathizers which was attempting to march to San Rafael Hospital, where "Mother" Jones is held under military arrest.

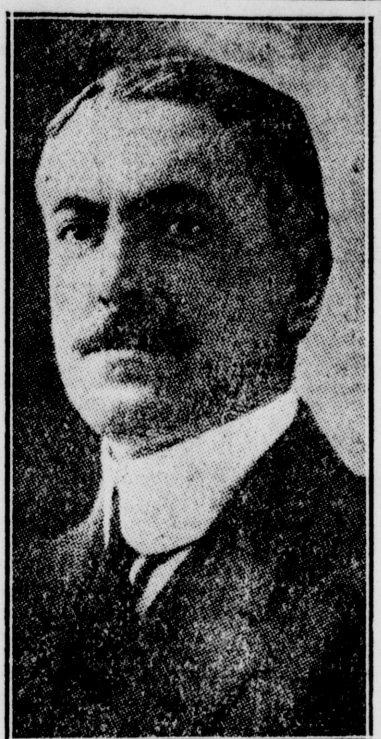

Stones, bottles and bricks were hurled at the militiamen by a crowd of angry women who precipitated the outbreak when they were ordered to turn back by the soldiers.

Several soldiers, including Maj. H. M. Randolph, were assaulted, and not until the cavalrymen with drawn sabers had charged them several times, was the mob dispersed.

## HELEN GOULD'S GOOD DEED ON HER ANNIVERSARY DAY

NEW YORK, Jan. 23.—To celebrate her first wedding anniversary, Mrs. Finley K. Shepard, who was Miss Helen Gould, provided dinners for 500 Bowers unemployed yesterday and 200 beds for the homeless. The dinner was served at the Hadley Rescue Hall. Mr. Shepard entertained 1000 yesterday in honor of the anniversary.

## Railroad Official Dead on the Eve of His Marriage

Richard D. Lankford, vice-president and secretary of the Southern Railway and many of its subsidiary corporations, died in his home in Brooklyn two days before he was to have been married to a young woman of that city. He was a Maryland man who many years ago had gone to New York and pushed ahead till he held many responsible positions. At forty-six years of age he was to wed Miss Mellie Patterson, thirty-eight, who had just given up an important business position for the wedding set for two days later than the day he was found dead of gas in his apartments.

Mr. Lankford had been identified with railway service from the beginning of his career. He had risen from a minor clerkship to be vice-president and secretary of the Southern Railway system and to hold like offices, as well as directorships, in many allied corporations. His experience had been largely in the accounting, financial and secretarial branches of railroad administration.

He was the son of Uriah J. and Elizabeth (Bounds) Lankford, was born February 28, 1867, at Princess Anne, Md. He was of English ancestry through the paternal and of Scotch-English through the maternal line of descent. He was educated at the Washington Academy at Princess Anne, Md.

From December 1, 1892, to May 31, 1894, he was cashier and treasurer of the Broadway Railroad Company and subsidiary lines of Brooklyn Rapid Transit system. In June, 1894, he became assistant secretary, and later secretary, of the Southern Railway, of which company he was chosen vice-president and secretary in September, 1910. He was connected in an official way with twenty-five or thirty other corporations.

## Bulletins of News

Hot from the wire up to 3:30 p. m.

### THE WEATHER

Cloudy tonight and probably Saturday; light west winds.

**94-Year-Old Man Passed Away in Pomona**  
POMONA, Jan. 23.—John H. Wilson, the oldest white man in Pomona, passed away at his home on East Pasadena street yesterday, at the advanced age of ninety-four years.

**\$30,000 Offer for Johnson-Langford Fight**  
LONDON, Jan. 23.—The management of the Olympia arena has offered \$30,000 for a meeting here in June of Jack Johnson and Sam Langford, the winner to get three-fourths of the purse.

## PROFITABLE REBATES FOR SWIFT & CO. ARE PROBED

CHICAGO, Jan. 23.—Investigation of charges that Swift & Company, packers of Chicago, profited to the extent of \$60,000 by what is said to have been in effect a rebating arrangement with the Ann Arbor Railroad Company, was begun by the federal grand jury here yesterday. A dozen packing houses and railroad men were among the witnesses who appeared.

## 4000 L. A. TEACHERS MUST TELL AGES—NEW LAW

LOS ANGELES, Jan. 23.—Four thousand teachers of Los Angeles county will have to write their personal history, tell their ages, what schools they went to, and give other information to County Superintendent Mark Keppel.

He has received instructions from the state superintendent to get this data, which will be kept on file in the state office.

The information is required under the new teachers' pension law. The county superintendent is to send names of teachers who come under the law, amount of their salary and how much deducted. This report will involve verification of 160,000 entries.

## 29 COUNTIES OF STATE BOUGHT ROAD BONDS

\$5,719,500 in Sales Accrue to State—Orange County Buyer to Extent of \$200,000

MONEY TO BE SPENT IN THE BUYING COUNTIES

Coast Road from Frisco to San Diego Nearly Ready by Opening of 1915 Fair

SAN FRANCISCO, Jan. 23.—A five-million and a half dollar guarantee of faith in the value of the state highway system has been furnished the state by twenty-nine counties that have subscribed bonds in excess of that amount to insure the construction work progressing to meet the demands of the Panama-Pacific International Exposition.

The highway bonds, bearing interest at four per cent, and which, under the law, must be sold at par and accrued interest, were suffering from lack of market when the Highway Commission appealed to the supervisors of various counties. The response was quick, and in addition to \$5,719,500 in sales, the commission now has a million dollars more in sight from similar sources, it is stated.

**State to Maintain Road**  
In return for this co-operation, the commission has agreed to expend the money within the counties financing the bonds. As the state maintains the highway, the saving to the counties in maintenance in practically every instance will be as great in the first year, it is claimed, as the depreciation losses which the counties must stand to make the bonds saleable. The depreciation has averaged less than five per cent.

In a statement given out last night, the State Highway Commission shows the following subscriptions of bonds by counties to date:  
Los Angeles, \$695,000; San Diego, \$557,000; Alameda, \$500,000; Solano, \$390,000; Contra Costa, \$300,000; Colusa, \$290,000; San Luis Obispo, \$250,000; Santa Clara, \$225,000; Glenn, \$218,500; Kern, \$200,000; San Mateo, \$200,000; Orange, \$200,000; Imperial, \$200,000; Fresno, \$150,000; Marin, \$150,000; Sacramento, \$150,000; Santa Barbara, \$141,000; Tuolumne, \$125,000; El Dorado, \$150,000; San Bernardino, \$105,000; Riverside, \$100,000; Humboldt, \$100,000; Stanislaus, \$75,000; Santa Cruz, \$75,000; Siskiyou, \$50,000; Monterey, \$45,000; Mendocino, \$45,000; San Benito, \$25,000; Shasta, \$50,000.

**New Impetus to Work**  
The commission believes that with this co-operation, the coast road from San Diego to San Francisco will be nearly completed by the opening of the 1915 exposition as well as the road north from San Francisco to Eureka, the West Sacramento Valley highway from Red Bluff to Benicia and a considerable part of the artery from Bakersfield to Red Bluff, via Fresno, Sacramento and Marysville.

**COTTON GROWERS TO ASK HELP**  
HOUSTON, Texas, Jan. 23.—Cotton and corn growers of Texas have formally requested all the state's representatives in congress to urge an appropriation of \$200,000 to furnish seeds for crops in those districts which suffered most during the recent floods.

## MONEY IS EASIER THROUGHOUT COUNTRY

Shown by Quick Sale of New York Bonds—\$51,000,000 Issue Sold in 1 1/2 Hours

NEW YORK, Jan. 23.—The \$51,000,000 issue of New York state 4 1/2 per cent bonds, purchased Wednesday by a Wall Street syndicate, the highest bidders at 106.077, was sold yesterday by the syndicate at 107.25, within one hour and a half after being offered to the public.

The demand far exceeded the supply. This was taken in the financial district as an indication of improvement in the financial situation. The syndicate's profit was about \$550,000.

## VILLA'S ARMY FLYING INTO OJINAGA BEFORE LAST BATTLE

General Pancho Villa, the conqueror of Juarez and Chihuahua and the victor in the recent battle of Ojinaga, showed his ability as a military leader in this last exploit when he hurried from Chihuahua, 185 miles distant, with a small army and threw himself into the work of driving out the federal troops.

The illustration shows the army of Villa scattered out over the road leading into Ojinaga. He left Chihuahua with 1,000 or more troops after the generals he had sent north with many more had failed to capture the town. Within less than six hours after he took charge and began his attack the

## "OLD GUARD" RALLIED AT THE GLENWOOD INN, RIVERSIDE, LAST NIGHT

(Special to the Los Angeles Tribune.)  
RIVERSIDE, Jan. 22.—The presidential suite at the Glenwood Inn, this city, tonight was the scene of a secret convale of some thirty-five standpat Republicans. The purpose of the secret session was the organization of a Southern California Republican federation.

The meeting, presided over by W. M. Garland of Los Angeles, was behind closed doors.

Resolutions were adopted calling upon Republicans of the state to unite for the coming campaign with a view once more to gain control of the state government which was taken from the Southern Pacific machine four years ago. Leroy A. Wright, state senator from San Diego, was elected president of the federation, Albert L. Bartlette of Los Angeles was made secretary and J. L. Mathews of the Covina Argus was selected as treasurer. It was decided by the convale to name an executive committee of 100.

The Los Angeles delegation was composed of W. M. Garland, Vincent Morgan, Percy W. Hammond, of the district attorney's office; T. J. K. McGowan, one of the collectors of the belated Rose campaign fund; R. W. Richardson, A. L. Bartlette and Douglas White.

From San Diego county were Leroy A. White, Dr. H. Goehnaur, chairman of the Republican county committee, and C. W. Hornick, formerly business manager of the San Francisco Call. San Bernardino county was represented by L. W. McNab, F. S. Keeley, and R. C. Harbison, editor of the San Bernardino Sun.

Among the others present were: J. A. Driffler of Oxnard, J. L. Mathews of Covina, F. C. Roberts, editor of the Long Beach Telegram, and G. F. Hirsch, postmaster of Long Beach, J. W. Morrison and W. M. Brown of Orange, E. B. Collier and G. R. Freeman of Corona, J. Gabbart of the Riverside Enterprise, David Perkins, and J. J. Speers, editor of the Santa Barbara Independent, and E. W. Paul of Upland.

## CURLETT, ONE OF FOREMOST ARCHITECTS, DEAD

LOS ANGELES, Jan. 23.—News of the death of William Curlett, one of the foremost California architects and designer of a number of the principal buildings in Los Angeles, was received with regret here yesterday. Among buildings he designed are the court house, the Gates Hotel, the Mortgage Guarantee building and the new Merchants' National Bank building. He also designed many office buildings and homes in San Francisco. He was president of the State Board of Architects and member of the advisory board of the Panama-Pacific Exposition.

## DISTINGUISHED IRISH CITIZEN DIES AT EL PASO

EL PASO, Jan. 23.—Judge Patrick H. Clarke of the special district court, and one of the first delegates of the Irish National Land League to the United States in the '80's, died here yesterday. He was an associate of John Boyle O'Reilly, T. P. O'Connor, M. P., and Michael Davitt, M. P. Throughout the state of Texas he was known for his ability as a jurist.

**S. CALIFORNIA AVIATOR DEAD**  
NEW YORK, Jan. 23.—Charles K. Hamilton, pioneer aviator of Southern California, died yesterday of hemorrhage of the lungs.

## PARTY AFFILIATION CHANGES CAN BE MADE AT THE OFFICE OF THE COUNTY CLERK ONLY

County Clerk W. B. Williams will be unable to grant the request of S. J. Jackman that various registration clerks over the county be given authority to take affidavits making changes in party affiliation. The law specifically states that all changes of party registration must be made in person before the county clerk or registrar of voters, and not elsewhere. There is no registrar of voters, an office created but on account of a referendum never realized. So changes of party affiliations must all be made before the county clerk.

In his conversation with Jackman yesterday, Williams said that he would take the request under consideration, and if there developed any considerable demand for deputies empowered to take party affiliation changes, he would name some about Feb. 1. Williams, however, did not believe there would be a demand sufficient to warrant a change in the system always followed by him, which was to have all party changes taken by him.

As soon as possible Williams looked the matter up in the California Election Laws—which volume, by the way, has 370 pages—and all question as to what will be done was settled by the following paragraph, appearing in Section 1366a:

"In case any elector shall have declined to designate or shall have changed his political affiliation prior to the close of registration for primary elections he is entitled to have such change recorded prior to the close of said registration upon application to the county clerk or registrar of voters. In case any elector shall have declined to designate or shall have changed his political affiliation prior to the close of registration, he may appear in person before the county clerk or registrar of voters, at the office of the county clerk or registrar of voters, and not elsewhere, and make affidavit substantially in the following form:"

"Then follows the form of affidavit that must be taken by a person changing party affiliation."

"Changes can be made up to thirty days before the primary election, which is to be held on Aug. 25," said Williams. "There are very few people in the county but who at some time between now and then will be in Santa Ana at least once, and I think no hardship will be worked upon anyone in following out the law. However, the law is plain, and I shall follow it. Those who desire to make changes of party affiliation may do so any day the office is open."

## HUERTA MAKES OFFER TO RESIGN

Wants de la Barra to Succeed Him—"Chester" Asked to Be Sent to Puerto

VERA CRUZ, Jan. 23.—It was widely reported today that Provisional President Huerta had signified to United States Emissary John Lind his willingness to resign the presidency on certain conditions. The offer is reported to have been made through Jesus Mazon, who is still in Vera Cruz, presumably awaiting an answer to the proposition. The report is to the effect that Huerta is willing to retire if de la Barra succeeds him while he personally leads the federalists against the rebels, and furthermore, if the administration at Washington will agree that he might be a candidate for Mexico's presidency at the next election.

**CHESTER TO GO TO PUERTO, WHERE 300 AMERICANS ARE**  
It was confirmed today that Envoys Lind had asked that the cruiser Chester be sent to Puerto, Mexico, where 300 Americans are congregated. A battle is expected there soon, the rebels already closing in for a siege.

**NORDICA IS IMPROVING**  
MELBOURNE, Australia, Jan. 23.—From Thursday Island comes word that Mme. Lillian Nordica, the opera singer, who has been ill, is progressing favorably. Nordica was one of the prisoners on the steamer Tasman, which ran on a shoal in the Gulf of Papua on December 28.

took charge and began his attack the

pearing in Section 1366a:

"In case any elector shall have declined to designate or shall have changed his political affiliation prior to the close of registration for primary elections he is entitled to have such change recorded prior to the close of said registration upon application to the county clerk or registrar of voters. In case any elector shall have declined to designate or shall have changed his political affiliation prior to the close of registration, he may appear in person before the county clerk or registrar of voters, at the office of the county clerk or registrar of voters, and not elsewhere, and make affidavit substantially in the following form:"

"Then follows the form of affidavit that must be taken by a person changing party affiliation."

"Changes can be made up to thirty days before the primary election, which is to be held on Aug. 25," said Williams. "There are very few people in the county but who at some time between now and then will be in Santa Ana at least once, and I think no hardship will be worked upon anyone in following out the law. However, the law is plain, and I shall follow it. Those who desire to make changes of party affiliation may do so any day the office is open."

## SENATOR GORE MAY TRY RADIUM FOR HIS BLINDNESS

WASHINGTON, Jan. 23.—Thomas P. Gore, the blind senator from Oklahoma, has heard with great interest of the success of Dr. John Ege of Reading, Pa., in experiments with radium for the restoration of the eyesight. If the experiments now being conducted by this physician prove successful he will avail himself of the offer of Dr. Ege to be treated.

"I do not know Dr. Ege, of course," said Senator Gore yesterday. "But I assume that he is a reputable physician who has given much study to this subject. The facts set forth are intensely interesting to me. I shall watch his further experiments with an interest that can be realized only by a man who is blind. If his research and experiments show that blindness is probably curable, no one would be more gratified than myself to undergo a treatment that promised success."

**HUNDREDS NEAR DEATH IN SPAIN—INFECTED MEAT**

MADRID, Jan. 23.—Physicians have been sent to Algora, where several hundred people are reported as having been poisoned by infected meat. Many are near death, according to reports received here.

## JAPAN GIVES OUT NEW POLICY

In Second Address Before Parliament, Makino Springs Great Surprise

## JAPAN WILL PROTECT OWN CITIZENS IN MEXICO

Implies Their Safety Will Not Be Left to the Mercies of the United States

WASHINGTON, Jan. 23.—Secretary of State Bryan today admitted that the news of a distinctly anti-American-Mexican policy as announced by Japanese Foreign Minister Makino came as a great surprise. He said that Makino's speech in parliament regarding the California land situation was submitted to him, but that he had had no intimation of the second address with the statement that the Mikado intends to look after his own subjects in Mexico "with the aid of his ally, England," with the plain implication that he will not leave the safety of Japanese interests in Mexico to America.

There is a growing feeling in official circles that the Japanese government plans to make a series of attacks in retaliation for the California anti-alien land law, on American foreign policies.

## SECOND ADDRESS WAS MADE BY FOREIGN MINISTER

The second address by Baron Makino, the Japanese minister of foreign affairs, to the Japanese parliament yesterday was made public last night by the Japanese embassy here. It was delivered yesterday after the minister had discussed the California anti-alien land controversy and it covers the field of Japan's relations with the other world powers, reviewing the reasons for dispatch of the cruiser Izumo to Mexico and the development of Japan's policy toward China and Russia. In this connection Baron Makino stated, emphatically, that Japan already had benefited by her alliance with Great Britain, and expected in the future "greater proof of its efficiency" in the maintenance of the integrity of China.

## FOUR BANDITS ROB MICHIGAN CENTRAL FLYER AND ESCAPE

JACKSON, Mich., Jan. 23.—Four bandits went through the Michigan Central's Detroit-Chicago flyer at 3:30 o'clock this morning and robbed the passengers of \$200 in coin and thousands of dollars worth of jewelry. They left the train at the first stop. Late this morning the posses had found no trace of the robbers.

The robbers were not masked. They boarded the train as ordinary passengers, but when the conductor asked for tickets they flashed their revolvers in his face and commanded him to raise his hands. They then went through the Pullman for their booty. The robbers worked feverishly after they began operations. While two of them held the guns, the others went ahead through the Pullman cars pulling bags and clothing from berths and searching them, then piling them on the floor. The passengers were compelled to sort their clothing from the general jumble to find their own.

Showers continued during the morning and the water is rising. Telephone messages from Calistoga and other upper valley sections said that the towns were flooded but no heavy damage had resulted.

## BOMB FOUND NEAR POWER PLANT OF CALUMET MINE

CALUMET, Mich., Jan. 23.—Under Sheriff Harris of Kewannaw county last night reported finding a suit case containing a roughly constructed bomb filled with nitroglycerine, and with three feet of fuse attached, near the power plant of the Ahmeek mine. Authorities believe the person who left it was frightened away by one of the mine guards.

## JULIA MARLOWE RUSHES EAST FOR AN OPERATION

CHICAGO, Jan. 23.—Julia Marlowe, the actress, stricken with appendicitis at Los Angeles, arrived here today in a special car, which was attached to a Lake Shore flyer, and started for New York immediately where an operation will be performed upon her arrival.

### REV. E. J. INWOOD IS GUEST OF HONOR AT RIVERSIDE BANQUET

Santa Ana Pastor Delivers  
Fine Address at His  
Old Home

(Riverside Press of Jan. 22.)  
The annual banquet of the Brotherhood of the Grace Methodist church, East Eighth street, was held last night in the dining room of the church.

The banquet was served by the Ladies Aid Society of the church, and it proved to be one of the most enjoyable functions of the kind ever held under the auspices of the Brotherhood. More than 150 persons were present.

The fact that the Rev. E. J. Inwood, former pastor of the First Methodist Episcopal church, now pastor of the First M. E. church at Santa Ana, was the principal speaker of the evening was responsible for so large an attendance.

Following the banquet, the members and friends to the number of about 200 gathered in the auditorium of the church and enjoyed the address of Mr. Inwood. His subject was "Make Jesus King."

The address was an able one and very helpful to those who are following the footsteps of the Master in brotherhood and other branches of Christian work. Mr. Inwood was at his best last night and being among friends was at his ease. His talk was enjoyed by a number of representatives of the First M. E. church.

**Auto Owners, Attention!**  
—If your car starts hard these fresh mornings, have one of Kaufmann's primers put on and you will start easy; \$3.50 put on. 417 North Broadway.

### Fancy Groceries

At this season nearly everybody wants the choicest of foods. We wish to state that at our store will be found all the most tempting of eatables.

Pure Preserves  
Dainty Deserts  
Choice Cheeses  
New Crop Nuts  
Crisp Vegetables  
Fresh Fruits

The best of everything  
in staple groceries.

**Morrill Bros.**

### Cabinet Woman Would Study Economics

Mrs. Richard C. Burleson, wife of the postmaster-general, has announced she will enter Georgetown University to study economics and politics. So there is considerable agitation among those who pay attention to the cabinet ladies in Washington to determine if they should become college students.

Mrs. Burleson's husband perhaps knows more about politics than anybody in Georgetown University. He has practiced the art and made it pay. For years he has been a power in Texas politics, and he was of much importance as a member of the House of Representatives. He was successful enough to promote himself to a cabinet position despite the fact that Robert L. Henry, chairman of the rules committee of the House, was trying to become attorney-general in the Wilson cabinet. Both could not go in from Texas, and in the end Burleson had out-generalled Henry.

**An Ideal Woman's Laxative**  
Who wants to take pills, or castor oil, when there is nothing better than Dr. King's New Life Pills for all bowel troubles. They act gently and naturally on the stomach and liver, stimulate and regulate your bowels and tone up the entire system. Price, 25c. At all druggists, E. C. Buckner & Co., Philadelphia or St. Louis.

### CHURCH NOTICES

#### Advent Christian Church

The regular services will be held at the Advent Christian Church next Sunday, led by the pastor.  
Sunday school, 10 a. m. Preaching, 11 a. m. Loyal Workers' hour, 6:30 p. m. Preaching, 7:30 p. m.  
Prayer meeting Thursday evening at 7:30, choir practice following. Everybody welcome. R. B. Shannon, pastor.

#### Presbyterian Church

Sunday, January 25—Sunday school at 9:45 a. m. Morning worship, 11 o'clock. Reception of members and communion service will be held at this hour. Christian Endeavor, 6:30 p. m. Evening service, 7:15 o'clock.

### The Tustin Shoeing Shop

is well established for handling all your horse shoeing. We have installed a pair of stocks for handling "baa ones" with care. We have also installed a blacksmith department, ready for all classes of work, and make a specialty on plow work as well as job work.  
We have one of the best systems for tempering plow shares. Give us a call.  
Cor. Third and B Sts., Phone 444J3.  
COPE & WILLIAMS, Props.

### SOCIETY AND CLUBS

#### Missionary Society

The members of the Missionary Society of the Presbyterian church held their regular meeting Thursday afternoon in the social room of the church.

With the president, Mrs. H. A. Allen, in the chair, the meeting opened with a song, followed by prayer. Mrs. Allen had arranged to have short readings on China in response to the roll-call, and Mrs. Tingley was requested to give the names of those missionaries mentioned in the prayer calendar for the prayers of the church this month, and this was followed by a succession of short prayers. The subject for study this month was "Home Missions Financed," to be led by Mrs. McCullough and Miss Sheats. Miss Sheats conducted the devotional exercises and made this part of the meeting an interesting one by arranging Scripture references in something of a story form regarding tithing. Mrs. Chas. Willard sang, accompanied by Mrs. Ebel, a song with special reference to the subject.

The membership committee reported three new members. A report from the Los Angeles Presbyterian was read by Miss Stone, who was sent by the Tustin Union as a delegate this month. The Presbyterian held in Los Angeles on the first Monday in each month is a clearing house, as it were, for all the latest news from Presbyterian missions and missionaries all over the world, and the Tustin Union now has a fund for sending a delegate every month in the year, who will bring a report of the proceedings and thus keep the society in touch with what is going on up to date.

The condition of Home Missions and methods by which they can be financed were brought out by a series of readings in which all the ladies took part, making the subject an interesting one. The study of the immigrant was a most striking one. The meeting adjourned in the late afternoon.

#### Entertained in Santa Ana

Mrs. W. L. Shatto and her guests from the east, who are her mother, Mrs. J. M. Watson, and sister, Mrs. J. H. Davis, were entertained Thursday afternoon by Mrs. Harry Hanson in Santa Ana. Mrs. Hanson gave a party in honor of the eastern guests, to which several ladies from Tustin were invited, among them Mrs. Sarah Brown, Mrs. Thos. Rawlings, Mrs. Crawford, Mrs. Shatto is improving in health right along and is able to go out visiting quite often.

#### The Children's Hour

On Tuesday evening after the departure of the Literature Section, Miss Childs invited her little friends in the neighborhood to an impromptu supper, which was a surprise and a delight to the children in her neighborhood and they spent the early evening in amusing games and music.

#### Tustin Literature Section

The Tustin Literature Section of Ebel held a meeting last Tuesday afternoon with Miss Minnie C. Childs. Miss Childs is the leader of the section and she says she always endeavors to prepare a little surprise when they meet with her and usually puts on some extra touches in the preparation.

The rooms of her lovely little home were decorated with handsome roses, which looked not much more real than those in the exquisite paintings which are seen on every hand in her unique home. An artist of national reputation, Miss Childs seems to love to paint flowers, and the roses, the chrysanthemums, the orchids, the iris are caught in their natural beauty of color and gracefulness and this beauty appeals to one the same as the natural flowers. With all those beautiful paintings to study it must have been hard to study a book, but the ladies finally got down to work and "The Lost Boy" by Van Dyke was the first thing taken up and then the remaining articles of the "World's Work."

The surprise came when at the social hour, instead of the light refreshments, which it is their rule to serve, Miss Childs invited them to the dining room, where they all gathered around the table spread with a generous luncheon. The dining room had been decorated for the occasion with

stately poinsettias, and each guest received a souvenir, an exquisite little favor hand-painted by Miss Childs on a dainty card and pink satin to be used as a book mark. Thus the ladies of the Literature Section were truly made to unusually enjoy the meeting with their leader.

#### Coreopsis Club

No more enjoyable meeting of the Coreopsis Club has been held recently than that taking place Wednesday afternoon at the pleasant ranch home of Mrs. Charles Lambert. There was a full meeting and a great deal of work was accomplished along the line of embroidery, which, as the name implies, is the chief subject of study. The club was started and led for a time by Mrs. C. A. Tuttle, a former resident of Tustin, who was an artist in the work of embroidery, and the meetings have proven occasions of much social enjoyment to the members.

Those present Wednesday afternoon were Mesdames Thos. Rawlings, C. O. Artz, Ed Smith, Thos. Mann, Fenlon Matthews, J. H. Stearns, Jno. Kiser, Jack King, Elsworth Mount, Misses Ethel Alderman and Eva Stearns, Mrs. Hart and the hostess, Mrs. Lambert.

At 5 o'clock a delicious collation was served, consisting of tomato pie, lettuce sandwiches, fruit salad, chocolate and cake.

#### Surprise Party

The friends of Miss Ruth Morgan planned a surprise for her on the occasion of her birthday Monday evening. They gathered at the home of Miss Grace McCarthy, going together to Miss Morgan's home. The evening was a very enjoyable one with games and music, each one contributing his share in entertaining the crowd with something of interest.  
Late in the evening refreshments were served and greatly enjoyed. Those who were present were Misses Alice and Inez Phinney, Grace McCarthy, Mattie Donham and hostess, Ruth Morgan; Messrs. Orville and Lloyd Heaton, Ernie Mock, Dan Smith, Roy Morgan, Lutz and Bud Hanniford, and Mr. and Mrs. Henry Ebel.

#### Birthday Party

Thirty-nine happy little girls and boys spent the afternoon Tuesday with little Marjorie Cranston on the occasion of her seventh birthday. The afternoon was balmy and out in the yard there were many attractive things to see after being in the house for the most part of so many rainy days. A box of toys which had recently been sent to the little Cranston girls was opened on the porch and each little boy or girl found something different to play with. Then there were games in the house. The ice cream cones were delicious and there was a birthday cake with seven candles to be blown out when all the little girls and boys had wished Marjorie many happy returns of the day. Then the cake was cut and each child received a slice. The cake was made by Mr. Eaton and it had the name "Marjorie" beautifully traced on the top. Marjorie received many lovely gifts from her friends.

#### The Y's and Unwise

A good many young people who are members of the Tustin Y are interested in becoming instructed in parliamentary law, and Mrs. Sarah Brown has invited them to meet at the Advent Christian church tonight when she will give them a parliamentary drill and they are to invite all others who will to come to this meeting and be instructed with them tonight. It is hoped that all who can will attend this meeting and take part in the drill.

#### New Office Progressing

The new office building of the Tustin Lumber Company is progressing. The outside finishing of California redwood seems to be the pick of material from the lumber yard and is being put on in palace car style. It has a substantial foundation and basement, three spacious office rooms on the ground floor and telephone booth. This new building also speaks of the all-round steady growth of Tustin.

#### Tustin Land-Mark

One of the most unique land-marks around Tustin way is the Chinese Pagoda tank-house on the Maury ranch. The roof on this structure has the true Oriental lines and people who have toured the Far East are struck with the striking resemblance.

### TUSTIN PERSONALS

Miss Clara Macomber spent the week-end with her mother in Tustin.

Mr. and Mrs. Wm. Sharp have moved to the Harrison place on Glen avenue.

Mr. and Mrs. Thos. Mann have sold their home to H. P. Holmes and they will probably move to Santa Ana.

J. R. Mock spent the day in Los Angeles Thursday.

Miss Minnie C. Childs entertained eleven friends at dinner on Wednesday. They were all old neighbors and immensely enjoyed getting together.

Mr. and Mrs. O. T. Hopkins and family have moved into their home, recently purchased on the corner of Second and A streets.

Mr. C. C. Mount of Pasadena spent the week end in Tustin with his son, E. L. Mount, and family.

Mr. and Mrs. E. O. Heaton and family left for Placencia last Tuesday. Mr. Heaton will take charge of the market at that place.

C. E. Smith is moving this week into his attractive new bungalow on Third street, which is just finished.

Rev. and Mrs. E. W. Blew and Miss Bentley motored to Los Angeles Tuesday, returning Wednesday morning.

#### Tustin Association's Improvements

The Tustin Hill Citrus Association is making extensive improvements in installing a new drying machine. This drying machine looks like a very complicated piece of mechanism, but will simplify and facilitate the handling of oranges. The fruit is taken in on the large platform and runs through a washer and tank. In running through the dry machine, which is 100 feet in length, it is treated with air, and thus it is dried off (no heat), going direct from the dryer to the sorting table. The large platform is to have a new roof and work can proceed in all kinds of weather when fruit can be picked from the trees. This new equipment has a capacity of five cars daily. All the fruit will be washed, while formerly only a part of it was washed.

The drying machine is being installed by the Parker Machine Works of Riverside and it will require about three weeks' time to finish it. Another recent improvement is a new iron roller bench to replace the old wooden one.

The spacious new offices of both the Citrus Hill Association and the Lemon Association are complete in every detail, having improved adding machines, typewriters and other modern appliances of different kinds for handling the business when the rush comes.

The Tustin Hill Association has shipped fourteen cars of oranges since January 7.

A number of new growers have come into the association and others have applied who have bought orchards that must be worked up to a better standard before being admitted.

The Tustin Lemon Association shipped two carloads of lemons this week.

#### Four New Houses Planned

Three beautiful lots adjoining Jasper Leck's home on Main street, between A and B, have been sold by him to Tustin citizens, who will build homes on them in the near future. It is said that Mr. Leck himself will build a modern bungalow on the fourth lot for his own new home.  
The purchasers of the three lots are W. L. Leiby, C. O. Artz and Guy Bolyard. Mr. Leiby recently sold his twenty-acre home on Santa Clara avenue and expects to immediately begin building a new home on this beautiful lot in the center of Tustin. The others will also build in a short time.

#### Two Fires in Two Days

The fire which occurred Sunday night on the Irvine Ranch Company's ranch, consuming a barn with 200 tons of hay and twenty-six horses, is still a source of trouble and menace, the baled hay still smoldering, and is hard to extinguish.

Another fire Tuesday night, though in a different direction altogether, was also on the San Joaquin ranch, and from the condition of things when discovered, looked suspiciously like incendiarism.

Santa Ana Painless Dentists, 102 1/2 East Fourth St. Main 253.

## Gopher Traps

Now that the ground is good and soft the gophers will begin to work and you want to get ready for them.

THE BOX GOPHER TRAP AND THE MACABEE WIRE TRAP

Cor. Fourth and Birch Sts.

## MAFIA CLAIMS TWO CHICAGO VICTIMS

Banker and Saloon-Keeper Shot on Street—No Clues to Assassins Found

CHICAGO, Jan. 23.—Two rich Sicilians, Rosano Despensia and Antonio Puccio, were assassinated today, supposedly for "squealing" on the members of the Mafia.

Despensia was a private banker. Puccio owned several saloons, and was formerly Despensia's banking partner. Puccio was chatting at a corner with a friend when he was shot dead from across the street. As the police came up Despensia, also hearing the shots, stepped from a neighboring doorway. Two more shots rang out and Despensia fell dead. There is no clue to the assassins.

## FOOLISH MAN WOULD BE FREE OF THRIFTY WIFE

MEMPHIS, Tenn., Jan. 23.—Because his wife insisted upon canning enough fruit to last through the winter and kept on putting up jellies and apple butter, D. C. Rea has entered a suit for divorce. He alleges his wife "was wasteful with sugar and sealing wax."

## MAJ. ARCHIE BUTT STATUE IS ENTIRELY COMPLETED

NEW YORK, Jan. 23.—The bronze tablet memorial to Major Archibald W. Butt, personal aide to two presidents and one of the heroes who lost their lives in the Titanic disaster, has been completed and is to be erected in the ellipse at the back of the White House in Washington. A special fund was contributed by ex-President Taft, members of the diplomatic corps and high government officials in Washington for this tablet.

## WAR DANCE TO "CANNED MUSIC"

LINCOLN, Neb., Jan. 23.—The monotonous, rhythmic thump of the Indian tom-tom with the quavering falsetto of the squaws as they danced the "Omaha" and "Sun" dances in circles of whirling war-bedecked savages were made realistic yesterday for 200 grey haired men and women who met at the Temple theater in the annual meeting of the Territorial Pioneers' Association. The music was played on a phonograph. These wax impressions were secured by Prof. M. R. Gilmore of the university faculty, who is arranging for their preservation in the university archives.

## WORTH ONLY SIX CENTS

NEW YORK, Jan. 22.—With her "million-dollar smile" and all her charm, the affection of Vera Black, the "college widow," are worth six cents. That's what a jury in Justice Dugro's court decided Wednesday in the suit brought by John Ernest Wadleigh, former husband of Miss Black, against Loring Tondell, Cornell graduate and member of a wealthy Oil City, Pa., family, for \$50,000 damages for stealing the affections of the "college widow."

## LUMBERMEN URGE COOPERATION

MEMPHIS, Tenn., Jan. 23.—Closer co-operation and affiliation was urged yesterday by speakers at the final sessions of the twelfth annual convention of the Hardwood Manufacturers' Association. Prominent lumbermen from northwestern and middle western states attended in large numbers.

## Founder of New Thought Asks Divorce

Dr. Julia Seton Sears, founder of the New Thought Church in New York, has filed suit for absolute divorce against Frank W. Sears, naming as correspondent an actress named Pauline Langdon. The papers in the case were immediately sealed, but in them it is alleged that Sears frequently met the actress at her hotel.

Sears is the New Thought minister who married a young couple under a new set of rules for New Thought marriages which Sears established in the church. At the novel ceremony a woman in the balcony shouted to Sears as he was in the midst of the ceremony: "Has a married man who is not free and is living illegally with another woman any right to teach harmony?"

The identity of the woman was not at that time disclosed, but it has since been learned that she will play an important part in the divorce proceedings.

Sears' reply to the question was that if the couple were inharmoniously mated they were in sin to continue living together. In turn he asked the person in the balcony: "What of the proof?" But there was no answer.

## COMMANDER OF THE DEPARTMENT COMING

The afternoon of Jan. 28 is going to be an important occasion in local G.A.R. circles. On that day Department Commander G. M. Stormont of Pomona with his staff is to pay Sedgwick Post an annual visit. At 2 o'clock on the afternoon of the 28th a joint meeting of Sedgwick post and the corps and members of Gordon Granger post of Orange will be held at G.A.R. hall.

## GOETHALS MAY BE NEW YORK POLICE COMMISSIONER

NEW YORK, Jan. 23.—Mayor Mitchell today announced that he intends to appoint Colonel George Goethals, chief Panama canal engineer, as police commissioner of New York City.

"From the beginning of my term," said Mitchell, "I have tried to get Goethals. I intended saying nothing about it until Monday when I proposed to issue a statement. When George W. Perkins went to Panama recently, he carried a message from me to Goethals with a view of getting him to accept the appointment. I expect to see Perkins tomorrow night. All I can say now is that the result was most satisfactory."

**Washington Astounded**  
WASHINGTON, Jan. 23.—The report that Chief Engineer Goethals of the Panama Canal, will soon be appointed police commissioner of New York, and would accept, astounded Washington officials today. The report is generally discredited. Secretary of War Garrison said: "I can scarcely credit the story. I know Colonel Goethals recently declined a position to become general manager of a big business concern at Dayton, Ohio. I think the report of his appointment in New York will prove unfounded."

Special for Saturday, bananas 15c per dozen at James Sanitary Fruit Store.

## AT ONCE! CLOGGED NOSTRILS OPEN, HEAD COLDS AND CATARRH VANISH

Breathe Freely! Clears Stuffed-up, Inflamed Nose and Head and Stops Catarrhal Discharge. Cures Dull Headache.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm."

## MUCH DREDGING TO BE DONE IN CANAL

Channel Wide Enough for Passage of Vessels But Danger of Slide Remains

WASHINGTON, Jan. 23.—The Isthmian Canal Commission received a cable from Panama today saying that nearly two million cubic feet of earth must yet be removed from the Culebra Cut before it can be absolutely safe. A channel 160 feet wide has been dredged, which is sufficient for the passage of vessels, but the danger of slides will remain until the surplus earth has been removed, the message said.

## PROGRESSIVES LEAD IN CAPITAL REGISTRATION

SACRAMENTO, Jan. 23.—Total registrations in Sacramento county today were: Progressives, 1826; Republicans, 1483; Democrats, 1100; Socialists, 188; Prohibitionists, 22; declined to state, 48.

## DRIED FRUIT AND NUTS NOW BY PARCEL POST

WASHINGTON, Jan. 23.—Representative Knowland received word from Assistant Postmaster-General Dockery yesterday that sealed packages of dried fruit or nuts may be shipped by parcel post in the manner provided for sending tobacco, soaps and kindred articles.

## EVA BOOTH IS ILL—CONDITION GRAVE BUT NOT ALARMING

NEW YORK, Jan. 23.—Commander Eva Booth of the Salvation Army is at the barracks here suffering with a severe bronchial attack and general physical breakdown following a big meeting in Buffalo, where she collapsed. Meetings at Albany, Troy and Syracuse were cancelled. Dr. Harlow Brooks says her condition is grave but not alarming.

## MURDER BAND BROKEN UP

ST. PETERSBURG, Jan. 22.—Startling revelations of participation of Russian police officials in the terrible crimes of the "Demons of the Steppes" have been brought out in the trials of 72 members of that band of robbers and murderers, now progressing at Ekaterinodar, in the Caucasus.

For five years the gang had terrorized nearly the whole province of Kuban, robbing, torturing and killing hundreds. A large number of the prisoners have been convicted and condemned to death or to serve life sentences. Their long immunity from prosecution was due to the close affiliation of the "Chief Demon," a wealthy land-owner named Kench, who had formerly been a secret government agent, with leading police officials of the district, among whom were the commissioner of police and the chief of the secret police at Ekaterinodar. In the testimony it was revealed that in order to protect the real criminals innocent persons were arrested and by means of tortures, of which branding with red-hot irons was one of the mildest, were driven to make false confessions. A local journalist who had the courage to expose these methods was expelled by an administrative order, and was privately threatened with death should he return to give testimony in court. The judges were only able to secure his attendance by appealing to the Viceroy of the Caucasus.

## HUNTINGTONS ARRIVE

PASADENA, Jan. 23.—Henry E. Huntington and his bride, formerly the widow of his uncle, Collis P. Huntington, arrived today from Europe, where they were married, and are going to their home at San Marino.

## BIG INHERITANCE TAX

ALBANY, N. Y., Jan. 23.—A check for \$2,584,000, in payment of the transfer tax on the estate of the late Anthony N. Brady of New York, was received Wednesday by the state comptroller. The tax was figured on an estimated valuation of \$70,000,000.

**Hints to Housekeepers**  
Don't try to become accustomed to a smoky furnace. It can't be done. Spots on the parlor walls may be treated effectively by hanging pictures over them.

The only sure way to get a good line fence between your property and your neighbor's is to build it yourself.

In extreme cases it has been found possible to induce a landlord to make needed repairs by writing to the papers about him—but not often. One advantage in living in a house with narrow frontage is that you have less snow to clean off your walk.

**Work**  
Let a broken man cling to his work. If it saves nothing else it will save him.—Henry Ward Beecher.

# Clean Sweep Sale

Of Holiday Odds and Ends of Jewelry, Silverware, Stouffers China, Cut Glass, Watches and Clocks. **Stouffers China** Substantial reductions on a variety of hand-some pieces.

## SPECIAL WASHINGTON LETTER

By Burton K. Standish

WASHINGTON, Jan. 21.—The desire for convenience is the cause of the high cost of living, according to National Democratic Committeeman Fred B. Lynch, of Minnesota, who quoted a number of instances to prove his contention while sitting in a Washington hotel lobby the other day.

"The average purchase in a delicatessen store I know of in St. Paul is 31 cents," he declared. "It was found to deliver this order cost 7 cents. After more investigation along this line a friend of mine, who has been put in charge of the store, cut out his delivery wagons, his telephones, and every other item which could possibly be lopped off, and then he cut his prices. The housewife has to go to the store herself and bring her goods home in a basket, but she pays only 17 cents a pound for porterhouse steak, 15 cents for round steak, and 12 cents for pork and mutton. Think what could be done along the same lines in New York where it is said the cost of delivering meats and groceries is 37 per cent!"

"I have long known that the telephone have been largely instrumental in increasing the cost of living. It is time the people should make a study of how to eliminate expenses that are not necessary, when dealing with the problem of how to cut down the cost of living."

A casual scanning of the official directories that Uncle Sam gets out showing the names and salaries of his multitude of employees might lead the reader to believe that the "family of Wilsons" is favored in the matter of jobs. Listed in these directories are no less than seventy-five Wilsons who hold jobs that are better than the average, not counting "Mr. Woodrow Wilson," who is President.

There are scores upon scores of other Wilsons who hold clerkships and minor positions. It might be mentioned that none of the Wilsons, including the sixty-five who hold the better-than-average jobs, are any relation to the President. Joseph M. Wilson, brother of the President, tried to get on the government payroll, but he took his chance like any other citizen and was defeated for the job of clerk of the Senate.

First on the list of the sixty-five Wilsons is Secretary of Labor William B. Wilson, and his daughter, Agnes, who is listed as a clerk. Brigadier General John N. Wilson, retired, is a member of the Washington National Monument Society. Captain Walter K. Wilson is assistant chief of the Coast Artillery Division in the War Department. Clarence R. Wilson is United States attorney for the District of Columbia; Edwin W. Wilson is superintendent of the national bank redemption agency; George S. Wilson is secretary of the Board of Charities of the District of Columbia; John Wilson is chief clerk in the office of the Surgeon General of the War Department; Louis C. Wilson is disbursing officer of the

District of Columbia; P. M. Wilson is assistant financial clerk of the Senate; C. C. Wilson is messenger to the Senate committees; E. Wilson is secretary of the international waterways commission; Emmet Wilson is representative from Florida; F. E. Wilson is representative from Buffalo.

Not only dandruff, but scores of more dangerous diseases, including syphilis and cancers on the face, are spread by the use of the common hair brushes and combs on trains and in hotels, according to a mass of expert testimony obtained from 25 of the leading dermatologists of the country by Assistant Surgeon General W. Colby Rucker, of the public health service. As a result of this investigation, it is likely that very shortly an amendment to the Interstate Quarantine regulations will be recommended by the Surgeon General to the Secretary of the Treasury forbidding the furnishing of common hair brushes and combs for passengers by interstate carriers.

The most forceful point about the inquiry was the unanimity with which the physicians agreed that such a prohibition was not only desirable, but very necessary. Dr. C. H. Fox, of New York was the only one who did not believe such a regulation necessary. Dr. Fox also opposed the abolition of the common drinking cup, on the ground that it was not necessary. One of the strongest letters on this subject was from Dr. Isadore Dyer, of New Orleans. He declared the common hair brush is responsible for about 90 per cent of baldness. He traced loss of eyebrows and eyelashes to the same cause.

"I have seen in one day," he wrote, "the common comb and brush in a sleeping car toilet used by a conductor, brakeman, numerous patrons of the sleeping car, and have, finally, witnessed a scrub porter scrub the brush with the common soap in the basin of the toilet room." Another point made by Dr. Dyer was that it is not possible to sterilize a brush between times of using, unless the interval is 24 hours, or the brush can be boiled for 20 minutes after its use. He has known one stroke of the brush, he says, to infect his own scalp. Dr. T. Caspar Gilchrist, of Baltimore, states that ringworm and many less familiar diseases are transmitted by the common brush, while possibly syphilis may be communicated in this way.

AS TO MR. ESHLEMAN

Editor Register:—Because Governor Johnson has made a splendid governor he is entitled to re-election, that he may continue to serve the people.

Because Mr. Eshleman has made a good officer for the people he deserves to be degraded, his salary reduced; and if given any office whatever it should be one where he cannot do the people any good or the S. P. R. any harm; so we will put him in as Lieutenant-Governor.

There are many things in this new Progressive party that we know very little about, but the above reasoning sounds very much as the people reasoned fifty years ago, when it was thought, because U. S. Grant killed the most rebels he was the proper man for president.

No doubt if we could converse in Spanish or Mexican we would hear the peons advance the same kind of argument.

As a new convert to the ideas of Progressivism, I would like to see the new party put some brains into their argument.

Respt.,

JNO. SMITH.

So far as logic and common sense goes, Mr. Smith is eternally right. But he is a little off in his premise, in his information.

Every conference and discussion and consultation on the question of Mr. Eshleman's candidacy for lieutenant-governor agreed that he should be continued at the head of the Railroad Commission IF POSSIBLE.

But Mr. Eshleman can not continue in that position. He is not strong enough to work twelve and sixteen hours a day and eat and sleep irregularly if at all on railroad trains. Such a life would kill a strong man and Mr. Eshleman is not a strong man, physically.

He has positively announced his intention to retire from the Railroad Commission at the end of the present year.

He is too good a man to lose from the public service if he can be induced to remain in that service; and he is too devoted and patriotic not to continue in that service to the extent of his strength at the call of his party.

Hence the call for his candidacy for the Lieutenant-Governorship.

THREE YEARS IN PRISON GIVEN M. M. DAVISON

LOS ANGELES, Jan. 23.—Probation was denied to M. M. Davison, the aged real estate broker who pleaded guilty to a charge of forgery, in Judge Craig's court yesterday, and a sentence of three years in San Quentin was given the defendant.

The court stated that he had received many letters asking that leniency be shown Davison, but that the facts in the case did not warrant setting him free.

Judge Craig declared that a man who would deliberately defraud poor men and women out of their savings by dubious methods while posing as a reputable citizen deserved punishment.

DAKEN FIRED FIRST SHOT IN THE WHEATLAND RIOT MARYSVILLE, Jan. 23.—Testifying in the Wheatland hop riot murder trial of four pickers, Hop Inspector John Morris said: "Deputy Sheriff Henry Daken fired the first shot in the riot. He did not shoot into the air, but the fired straight into the crowd."

Daken had already admitted that he fired the first shot, but declared he shot into the air without any intention of injuring the strikers.

"Daken was trembling when he came with the deputies," continued Morris. "When he pointed his gun I cried: 'For God's sake don't shoot into that crowd of women and children.' Suddenly he fired point blank. I seized my wife and children and threw them behind a breastwork of mattresses. I then heard more shots and saw Daken, the owner of the ranch, running with the crowd at his heels, throwing rocks and bottles, and shouting. Another crowd came after Daken but he held them off with his gun."

Take a stenotypy course at the Orange County Business College.

Little Talks On Babyology

BY ANNA STEESE RICHARDSON Director of the Better Babies Bureau of the Woman's Home Companion

WHAT IS BABYLOGY?

(Copyright, 1913, by the Woman's Home Companion.) Do you love babies? Of course! Everybody does. So you will be interested in what comes next.

During the past six months, American women, leaders in progressive movements for bettering humanity, have brought to the attention of their home-making sisters a new popular science of great value in the family circle.

At first, it was studied by a few mothers who found that it could simplify their daily lives and make home brighter. Then a few physicians who have specialized on ailments of children saw its educational possibilities and began to read, and then to write about it. Health officers and city officials who were fighting sickness and poverty next took it up. Now fully half the women's clubs of the country have included the subject in their programs for 1913-14, and the gospel is spreading from coast to coast.

For lack of a more technical term, we who are interested in the work have coined a word. We call this science "Babyology." It means that branch of scientific study of man which deals simply, clearly, directly and comprehensively with the baby, as the foundation on which is built national health, strength, energy, intelligence and morality. It involves the consideration of every phase of baby's life, physical, mental and moral, from its foot to its play, from its cleanliness of body to the sort of love lavished upon it. A more fascinating science for women has never been evolved.

"Why," exclaims a mother, "we have always studied babies!" As an individual, interested mother, perhaps you have, Lady Mother. The United States, as a nation has not. Just think! In one state, where they have a perfect system for registering high-grade hogs and where the state legislature appropriates thousands of

is to see that every young woman is taught Babyology along with the other "ologies" included in the course of study set forth in public and private schools.

Another mistaken belief about babies has been that they are born "delicate" or "strong"; and, as they are born, so must they live—that is if they live at all! The delicate baby has been regarded as a dispensation of Providence, to be accepted with patience and resignation. Mother trotted and dosed it by day, and Father walked the floor with it by night, and the neighbors pitied them both. The idea that the poor little tot was born with the right to acquire strength and health was not preached. The thought of calling in science to transform the delicate baby into a strong one is comparatively new. It is part of this wonderful, this optimistic new science of Babyology.

And Babyology of the commonsense sort for the commonsense mother is the most important outgrowth of the Better Babies Contests which have been held at state and county fairs all over the country during the past summer and fall.

At a Better Babies Contest, the beauty of the baby does not count. Strength, energy, good proportions, intelligence do. Every baby entered in these contests has been examined by a physician, tested by standards of normal, healthy children. And every mother attending these contests has received her first instructions in Babyology. As more than a hundred thousand babies have been examined in these contests since January 1, 1913, by five thousand physicians of recognized standing, Babyology has gotten a mighty good start in American homes. Tens of thousands of mothers have become well acquainted with their own babies through these lessons in Babyology. They have found out why their babies are delicate and how they can be made strong. They have found out why small chests were sunken and how they could be developed, why small stomachs and abdomens were distended and sore and how they could be reduced to normal proportions; why some babies who cry ought to be smiling instead and how the smiles can be coaxed back. To sum it up, the study of Babyology has taught these mothers that a puny, sickly, fretful baby is not a dispensation of Providence but an unnecessary family burden, and a grave reflection on the intelligence of its parents.

As director of the Better Babies Bureau of the Woman's Home Companion, I have attended many of these contests, east, west, north and south. I have conferred with hundreds of parents, discussed babies and Babyology with hundreds of physicians. What these parents and physicians have learned from each other—and from the babies examined—is the basis on which these articles have been prepared.

Mothers who cannot enter babies in contests, mothers who cannot join clubs which are studying Babyology, will find help in these articles, built on the experiences of mothers who have done both. These talks on Babyology, twelve in number, will discuss every phase of baby's existence, from its food to its naps, from its tiny aches and pains to its play. Problems of feeding, bathing, dressing, sleeping, teething, exercising, all the habits of babyhood acquired in the first few years and, alas, so often never cast off, will be considered, just as they were seen to come up at these contests.

Babyology has one big splendid object, one throbbing message to give the world. It is Better Babies for the home and the nation. If you have no baby in your home, if you hope some day to have a baby resting against your heart, if you are merely a lover of other people's babies, you will be interested in this science of Babyology. It's the sort of thing you are glad to pass on to your neighbor—your fellow worker.

If you have a problem in raising your baby, some place in these talks on Babyology, it will be solved for you. If you cannot wait for that particular article, then write to me, in care of this paper, and your question will be answered by the aid of physicians who know babies and believe in the study of Babyology for all mothers.

The next article of the series will deal with the vital problem of feeding the baby.

FOREIGN COMPETITION CUTS PROJECTILES COST

WASHINGTON, Jan. 23.—Foreign competition is forcing down the cost of projectiles, Rear Admiral Straits, chief of the Navy Ordnance Bureau, told the house naval committee recently. He said that on one item, that of ammunition, he had to cut the amount \$400,000 below the appropriation of the current year because of opening up the business to foreign concerns.

MADMAN CAUSED SENSATION

BERLIN, Jan. 23.—Reports that an attempt had been made to assassinate Crown Prince Frederick William resulted today from efforts of a supposed madman to see him. The sentries were arrested.

## FOR EASTERN VISITORS

Mrs. Harry Hanson Hostess in Honor of Relatives at Afternoon Party

Mrs. Harry Hanson very charmingly entertained yesterday afternoon in honor of her grandmother, Mrs. J. N. Watson of Aurora, Illinois, and her aunt, Mrs. J. H. Davis of Holton, Kansas, who are the house guests of Mrs. Hanson's mother, Mrs. W. L. Shatto, of Tustin. Papirus and poinsettias were used in house decorations and the afternoon was pleasantly spent in conversation, fancy work and music. Miss Mary Hanson sang two or three numbers and Mrs. Hanson rendered several instrumental selections.

Delicious refreshments were served by the hostess, trays being used. Miss Mary Hanson assisted in serving. Besides the guests of honor, the hostess and Miss Hanson, there were present the following ladies of Santa Ana and Tustin: Mrs. H. K. Hanson, Mrs. J. D. Thomas, Mrs. Harry Stevens, Mrs. W. B. Tedford, Mrs. E. M. Nealey, Madame Nealey, Mrs. Harry Lewis, Mrs. C. A. Miller, Mrs. J. H. Brown, Mrs. George Brown, Mrs. Rawlings, Mrs. W. C. Crawford, Mrs. W. L. Shatto, Mrs. Anna Bennett.

## Embroidery Club Meeting

The young women of the M.N.U. Club assembled at the Newman home on West First street with Miss Mary Whipple as hostess. The dainty fancy work which they had taken with them was soon engrossing busy fingers and many of the new stitches were taken up. There was a goodly attendance in spite of the rainy night, as the devotees of this club are always when they get together. The house was especially attractive with decorations of Japanese baskets in which were massed pink and white Maman Cochet roses.

Mrs. Newman, the mistress of the house, embroidered with the club members and her presence was much enjoyed. Miss Newman was also a guest of the club. Refreshments served by Miss Whipple added to the evening's pleasure.

The members of the club who were present were Misses Rena Stafford, Opal Baker, Zoe Vanderlip, Adeline Hill, Gertrude and Frances Potts, Ruth Larson, Larline Dickey, Alice Wasser, and Miss Whipple, the hostess. Mrs. Ralph Gates of Lordsburg was a guest of the club in addition to Mrs. and Miss Newman.

## Wedding Anniversary

Invited out to spend the afternoon yesterday with Mrs. E. S. Morrow, Mrs. H. T. Duckett went home at half past five to prepare dinner, and opening the door of her dining room found the dining table spread with good things to eat. Before she had recovered from her surprise, some of her good neighbors came in view, their smiling faces and merry words plainly announcing that "something was doing." It was at on account of yesterday being the wedding anniversary of the Ducketts that the neighbors determined on the surprise dinner. Those in the pleasant scheme were Mr. and Mrs. E. S. Gilbert, Mr. and Mrs. E. S. Morrow, Mr. and Mrs. Roscoe Whitted.

Besides the surprise of the delectable dinner, another pleasing surprise was sprung on Mrs. Duckett, she being presented with a set of handsome lunch cloths. The evening following the dinner was spent with cards.

## A Tasty Breakfast Menu....

**Merigold Bros. Odd Fellows Building**

## Mother, Do You Know How to Care For Baby?

In today's Register is begun a series of articles under the heading, "Little Talks on Babyology." The series will continue, one article appearing each Friday until completed, and every mother should read every one of these articles.

This feature is presented to Register readers by special arrangement with the Crowell Publishing Company, publisher of the Woman's Home Companion.

The object of course is to instruct mothers how to care for their babies. Thousands of babies die or become puny, unhealthy children, with defective sight or hearing, even lame and blind, for want of proper care during infancy. And in nine cases out of ten the lack of proper care is due to lack of knowledge on the part of mothers, even those of more than average general intelligence.

The Register hopes and believes this series of articles will be a great help to both parents and children.

\*\*\*\*\*

## Iowa State Picnic

Since 1901, the annual picnic of the Iowa people living in California has been held on Washington's birthday, Feb. 22, unless that date fell on Sunday or it rained. This year the date falls on Sunday, hence the picnic will be held on Saturday, Feb. 21, unless rain interferes.

There is no other state picnic held in Southern California that compares in size with the Iowa picnic which is usually attended by an average of 25,000 people. Not only do the residents of the Southland, from all parts, flock to this event, but tourists from Iowa hasten to attend, feeling assured they will meet former friends and neighbors. It is confidently expected that this year's picnic will be by far the most generously attended of any of the Iowa reunions.

## In Honor of the Babies

Miss Rosa Boyd entertained yesterday with a one o'clock luncheon in honor of her little nieces, Rosa Boyd and Helen Rebecca, the twin daughters of Mr. and Mrs. Will Joplin; Master Harvey Rice, small son of Mr. and Mrs. Jas. Willis Rice, and Master Teddy Stephenson, son of Mr. and Mrs. T. E. Stephenson.

The juveniles had a most glad time and the fond papas and mammas had an equally happy one as they watched the interesting maneuvers of the cunning children.

The grown-ups at the luncheon were Mr. Will Joplin, Mr. and Mrs. James Willis Rice, Mr. and Mrs. James S. Rice, and Mr. and Mrs. Terry Stephenson.

## Philharmonic Rehearsal

Will the members of the Philharmonic Society please notice that the rehearsal next week will be on Monday instead of Tuesday? The rehearsal will be held at the home of Mr. Harry Garstang, corner of First and Cypress avenue. A full attendance is hoped for.

## SUCCESSFUL MEETING

Parents Disregarded Rain of Yesterday to Attend School Event

The meeting of the Parent-Teachers' Association of Lincoln school held yesterday was one of the most successful of the year, in spite of the rain. There were over eighty in attendance, including a few fathers, and the interest and enthusiasm manifested was most gratifying.

The picture was awarded Miss Paul's first grade for this month, half of her whole number of parents being present. The first grade was a close second, missing it by only one vote.

The fifth grade sang very sweetly the musical numbers of the program. Much interest was shown in the discussion in the four groups of the progressive round-table, where an animated exchange of helpful ideas was carried on while refreshments were being served by the fifth grade mothers.

The leaders in these discussions were Mrs. Whitney who spoke of "Playgrounds," Mrs. Shepherd who ably handled "Thrift," Mrs. A. C. Dawes who talked practically of "Obedience," and Mrs. Lindley who discussed "Self Reliance."

## Merry-Go-Round Club

Mrs. John M. Ryan was hostess yesterday to the Merry-Go-Round Club at her Durant street home, which was prettily decorated with white carnations.

A number of new fancy work stitches were introduced during the afternoon, and handsome pieces will no doubt result. Graphophone music was enjoyed during the afternoon.

Refreshments were served by the hostess before her guests departed. Those present besides Mrs. Ryan were Mesdames Geo. Law, Frank Cryer, Geo. Ford, Charles Baird, John Pullin, Florence McClay.

## Met at Crookshank Home

The Amphion Circle met yesterday afternoon at the home of Miss Lida Crookshank, most of the members being present. A brief business session was followed by an informal hour of chat and fancy work during which coffee and doughnuts were served.

## Montmellick Club

This embroidery club was pleasantly entertained yesterday afternoon at the home of Mrs. A. N. Cox at her North Main street home. Dark red roses were employed in adorning the parlors and Duchess roses in the dining room. The afternoon was spent in sewing and conversation. Mrs. Cox served delicious refreshments on the prettily appointed dining room table.

Besides the hostess there were present Mesdames S. Matthews, Bennett, Frank Wakeham, A. E. Marker, P. L. Andrews, J. E. Kellogg, Geo. Paul, W. L. Leiby, J. W. Hancock, Henry Rohrs, Jr., David Meyers, J. E. Meyers, Miss Margaret Wakeham.

## Goes to Angel City to Wed

Miss Milly M. Mize, daughter of Mr. and Mrs. George N. Mize, will leave here tomorrow for Los Angeles, where she will be married tomorrow night to Carl W. Galbreath of Indianapolis, Ind. The wedding will take place at the home of the uncle of the bride, who lives on Twenty-first street, Los Angeles.

Miss Mize has made many friends here and has been a popular member of the Happy Hours Club. She has been the honoree at several pre-nuptial events here given by friends, and will have the hearty good wishes of all who have formed her acquaintance.

## Music Recital

Miss Carolyn Haughton will present her pupils in recital Saturday afternoon, Jan. 24, at 3:30 o'clock in the studio over the Orange County Savings Bank, Room 18. All interested are cordially invited to be present.

## At the Stevenson Home

The West End Thimble Club was entertained at the home of Mrs. J. L. Stevenson, 222 West Santa Clara yesterday afternoon, beautiful red roses being used in profusion throughout the house.

A number of charming phonograph numbers were rendered between the intervals of conversation and an interesting rose contest.

Mrs. Stevenson served a two course delectable repast before the company dispersed.

The next meeting will be held at the home of Mrs. D. M. Weston, 316 West Santa Clara.

## Licensed to Wed

Marriage licenses were issued in Los Angeles yesterday to Eugene Griset, 37, of Santa Ana, and Lulu Townsend, 26, of Clearwater; Carl W. Galbreath, 25, of Indianapolis, Ind., and Milly M. Mize, 25, of Santa Ana.

## FIVE CASES OF TYPHUS FEVER

NEW YORK, Jan. 23.—Dr. Joseph J. O'Connell, health officer of the port, reported yesterday the development of another case of typhus fever among the detained passengers of the Anstrre-American line steamer Belvedere. This makes three cases from the Belvedere and five cases in all at this port.

## Personals

District Attorney L. A. West was a business visitor to Los Angeles this morning.

Mrs. W. E. Cowan spent today in Los Angeles.

Alan A. Revill made his usual Friday trip today to Pomona, where he instructs a number of pupils in music. He returns tomorrow.

Mrs. Ralph Gates of Lordsburg is the house guest of Miss Opal Baker. J. W. Elliot of North Main street, went to Pomona this morning for a few days' visit with old friends from the East.

Miss Philip Lord started this morning on her return trip to San Francisco after a visit here of five weeks. Her mother went with her as far as Los Angeles. Mrs. Lord made the trip to the Bay City by steamer.

Miss Hester Robinson, who has been down from Trabuco for a few days visiting with her sister, Miss Alice Robinson, and other relatives, returned home this morning.

Miss Alice Curtis, who has been visiting relatives and friends in Redlands for the past month, has returned to her home here.

## Unclaimed Letters

The following letters remained unclaimed for in the postoffice at Santa Ana, Cal., for the week ending Jan. 24, 1914:

Allen, W. F.  
Andrews, Mrs. Sula  
Anderson, G. F.  
Bliss, Frank  
Bram, G. F.  
Carter, John  
Cooper, Mrs. A.  
Croone, W. W.  
Duemmel, H. A.  
Estark, Mrs.  
Falkenstein, Mrs. Regina  
Henecks, Ely  
Hurst, W. V.  
Inman, Miss Marguerite  
Kumet, Herman  
Luehlich, Mrs. Lula  
McKee & Co.  
Merrifield, Mrs. Fannie  
Murray, Murty A.  
Rensch, Charles  
Shaw, Reta  
Shehorn, Bryant  
Stuart, Henry J.  
Banfman, Manuel  
Argita, Andres  
Baltazars, Mrs.  
Ballesteros, Joe  
Balderas, Ysac  
Cerde, Bionte  
Cardosa, de P. Govite  
Cardosa, Tobita P.  
Gonzales, Rogue  
Heredia, Pascual  
Lopez, Rufino  
Hirrudres, Lopez

Sargosa, Andres  
Torres, Hilario

If the above are not called for within two weeks will be sent to the dead letter office. When calling for same please say advertised and give date of same.

L. L. SHAW, P. M.

## SUDDEN DEATH OF MRS. STEELE TODAY

Mrs. Malinda Steele, mother of Mrs. G. R. West of Riverside avenue, died suddenly at noon today at the West home. Mrs. Steele has been ailing for some time, her illness resulting from an injury to her foot sustained in a fall, but she was not believed to be in any immediate danger of death, so her sudden passing away was a great shock to the family.

## Funeral of Mrs. Johnston

The funeral services for Mrs. John Johnston of North Main street were held this morning at 10 o'clock at the home of the deceased. There were a large number of friends present from Santa Ana and from the neighboring cities of Los Angeles, Pasadena and other places.

The floral remembrances were many and beautiful. The funeral services were conducted by Rev. J. A. Stevenson, who gave an impressive address. Miss Hazel Rowley sang "Does Jesus Care?" and "Asleep in Jesus." The casket bearers were Mrs. Johnston's two sons, W. D. and Clifford Johnston, and her sons-in-law, J. Edmond Snow and Mr. Tighe.

You are invited to attend the Eboli Club Library benefit dance at Balboa Pavilion, Balboa, Saturday evening, Jan. 24.

## BORN

HEFFNER—In Huntington Beach, on Jan. 22, 1914, to Mr. and Mrs. Harry Heffner, a daughter.

LINDSEY—In Santa Ana, Thursday morning, January 22, 1914, to Mr. and Mrs. Arthur Lindsey, a son.

## DIED

JACOBS—January 23, 1914, at her home, 2216 North Broadway, Santa Ana, Cal., Anna E. Jacobs, aged 61 years, wife of John Jacobs.

—Funeral services will be private.

STEELE—In Santa Ana, Friday, Jan. 23, 1914, Mrs. Malinda Steele, aged 80 years, at the home of her daughter, Mrs. Geo. R. West, 1007 Riverside Ave.

—Funeral services will be held Saturday, January 24, 1914, at 2 o'clock from Mills & Winbigler's chapel.

## ATHLETIC CLUB TO STAGE GYMNASIUM EXHIBITION

This evening the Santa Ana Athletic Club will give its first gymnasium exhibition. Preparations have been completed and a good program is assured. Mr. Herman T. Glass of Los Angeles, who captured first prize at the world's fair in St. Louis, will entertain with "Feats of strength" on the Roman rings. Miss Kingcade, also of Los Angeles, will dance beautiful athletic dances in fancy costumes—the Bluebird, Furlana, a spirit dance, and Madjar, a Hungarian dance, while the lady members of the club will give two exhibitions of folk dancing. Mr. Bunch and Mr. Drury will entertain with fancy and heavy work on the parallel bars and the boys of the club will give a short demonstration of class work. There will be an interesting wrestling match and probably one or two other numbers. This exhibition is open to the public and all who care to attend are cordially invited.

## AMUSEMENTS

**Headliner at Clune's Theater**  
Kaufmann and Sawtelle in a musical comedy act head the vaudeville bill at Clune's Santa Ana Theater for the next three nights. This is a very good act of its kind, the male member of the company doing some real "Paderewski" stunts on the piano.

The feature moving picture seen last evening was really a masterpiece in moving picture acting. The story was complete in every detail, and not only was it highly entertaining but it taught a splendid moral. The picture was entitled: "The House of Discord" and it was all caused by the absence of love. This evening there will be presented a three reel Lubin drama, "The Parasite." The management states that this is a good offering, and the audience will be impressed by this drama of high-class. "Mary's New Hat," an Edison comedy, will also be seen. This is a bright little farce well acted and freshly amusing. Another good act will complete the good program.

Owing to unforeseen circumstances the engagement of Madame Zenanda and Prof. Telford, who were to give a hypnotic demonstration act, has been cancelled.

Special for Saturday, bananas 15c per dozen at James Sanitary Fruit Store.

## RULES FOR PICKETING

CLEVELAND, O., Jan. 23.—Judge Lawrence in common pleas court Wednesday ruled that the striking union waiters may picket Hotel Statler and may say to guests "there is a strike on here," but that they must not shout and must not pass cards or circulars telling of the strike.

Correctly fitting glasses are made by Dr. Loerch, 116 East Fourth.

wrecked by N. A. Ulm, reported to the superior court a list of assets. That list shows \$9000 in notes secured by real estate, and about \$30,000 in notes held as collateral by the First National Bank of Santa Ana. That the notes not secured by real estate are practically worthless is conceded. Many of the notes were paid long ago. Some of them are suspected forgeries.

The report filed today has nothing to do with liabilities. As near as can be determined liabilities will reach about \$63,000, against which there are assets of only \$9000. The shortage is about \$54,000.

Notes secured by real estate mortgages are as follows:

M. S. Jones, \$100; Mary E. Lamb, \$400; N. A. Ulm, \$600; J. C. Galoway, \$1050; J. E. Culver, \$500; W. C. Roberts, \$450; W. L. Dugan, \$500; M. B. Ulm, \$650; C. M. Lewis, \$400; Belle Martin, \$100; D. G. McClay, \$550; John A. McFadden, \$1650; Minerva McCord, \$700; J. A. Preston, \$500.

Concerning the \$30,000 in notes held by the bank and not secured, the report of the special deputy says:

"The following list of notes purported to have been made to the Orange County Mutual Building and Loan Association are in the possession of the First National Bank of Santa Ana. The amount, if any, due the said association on said notes, has not been determined."

The notes listed are:

John B. Nichols, \$150; Francis P. Otis, \$2000; O. M. Packard, \$2400; B. M. Paton, \$1200; J. W. Young, \$2800; Ben Fallert, Jr., \$1000; J. C. Metzgar, \$800; A. E. Moore, \$450; Alice E. Ober, \$100; Alice E. Ober, \$900; G. R. Hemstock, \$1600; Mary L. Southwell, \$600; J. W. Driver, \$2500; E. R. McDowell, \$1400; Henry Luxembourg, \$700; J. N. Trickey, \$300; A. E. Hassler, \$1400; N. A. Ulm, \$700; E. W. Carter, \$1000; Nicholas Luxembourg, \$1400; F. L. Miller, \$1600; Clara McCord, \$300; Clara McCord, \$300; E. G. Rogers, \$1500; E. B. Peers, \$800; J. W. Martin, \$1800; S. Baker, \$1500; C. E. Brock, \$2000; N. A. Ulm, \$2800; Mary R. Bailey, \$400.

The investigation has indicated that some of these notes were never given by the persons whose names are signed. Others of the notes were paid. For instance, the records do not show loans made to Francis P. Otis, O. M. Packard, C. E. Brock and

B. M. Paton on the dates shown on the notes, and the records show the notes paid and released given in the cases of Ben Fallert, Jr., J. W. Driver, J. C. Metzgar, Henry Luxembourg, Clara McCord and others.

## Jayne is Sued

The National Surety Company has brought suit against F. P. Jayne, president of the California Folding Crate Company, which at one time was established at Anaheim. In October, 1909, the folding crate company contracted with the Southern Pacific to remodel the station at Indio into a club house for \$13,865. The contract was never performed, and the S. P. finished the job at a cost of \$3,470 in excess of the contract price. That amount was paid by the surety company, which was on the bond. The surety company is now suing Jayne personally for \$3,470, plus \$53 for attorney's fees. Page & Hart are attorneys for the plaintiff.

## To Settle It

The Marbury Ranch Company with A. L. Hayward, attorney, has brought suit against the Orange County Title Company to determine the possession of \$500 paid into the title company on October 13, 1913, by George A. Cook, a real estate man. The money is in escrow and two parties claim it.

## Estate Matters

Eva M. Adams has applied for letters of administration on the estate of John H. Adams, who died at Villa Park on January 4. The estate is valued at \$4,000, consisting of \$2416 in a bank and the remainder in a house and lot. Williams & Rutan are attorneys for the petitioner.

J. N. Anderson, A. N. Cox and Henry Diers have reported that the estate of E. A. Stockslager in this county is valued at \$55,126.23.

D. A. Blank, J. N. Anderson and D. A. Casey have been appointed to appraise the estate of Frank J. Mead.

## Court Notes

This morning a continuance of two weeks was granted in the case of Minnie N. Taylor against Charles D. Taylor and others. Judge Thomas was ready to render a decision as to whether or not the court has jurisdiction to try the case. Attorneys for the plaintiff asked leave to submit authorities on a new point raised in the matter, and permission was granted.

Suit for divorce was brought today by Loretta Bryan of Brea against Abner Bryan. Hunsaker & Harris are attorneys for the plaintiff.

## Is Again Loser

Attorney W. E. Chamberlain lost in his second attempt to get control of the estate of Carrie Van Brunt in this county. The estate is worth \$6,000. Chamberlain came in first as the nominee of the executors, who live in the east. Public Administrator Winbiger with Clyde Bishop as attorney defeated him, and secured letters. Chamberlain tried again, this time naming the executors as petitioners. This morning Judge West denied his petition after arguments were presented by Bishop.

## Sentence Withheld

This afternoon Melton Mora of Huntington Beach pleaded guilty to assault with a deadly weapon, and sentence was withheld for five years. Mora's good reputation aided him.

## BOW-WOWS ON SHOW

FARGO, N. D., Jan. 23.—A string of the most aristocratic canines ever seen on exhibition in the state, today are attracting unusual attention and interest at the Fifth Annual North Dakota Kennel Show, which opened here Wednesday. The competition between dog fanciers has become so keen in this part of the country during the past two years that extra room had to be provided for the entries. There are forty-eight silver cups offered, several of them huge affairs that have created much competition.

PUBLIC UTILITIES AND  
REAL PROPERTY

SYRACUSE, N. Y., Jan. 23.—"The Valuation of Real Property of Public Service Corporations" was the subject discussed today by Judge Irvin O. Vann, of Syracuse, at the third day's session of the fourth annual New York State Tax Conference at the Onondaga Hotel. Francis A. Whitney, tax attorney for the Western Union Telegraph Company, led the discussion following the principal address. Alfred Ely, prominent attorney of New York City, was scheduled to lead the discussion, but a continued illness prevented his attendance here.

Special for Saturday, bananas 15c per dozen at James Sanitary Fruit Store.

Santa Ana Painless Dentists, 102½ East Fourth St. Main 253.

SAGE AND SULPHUR  
DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Thickness

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.—Advertisement.

JOHNSON APPEAL OPENS  
UP WHITE SLAVE CHARGE

CHICAGO, Jan. 23.—The application for a new trial for Jack Johnson, the negro pugilist convicted of white slavery, was argued yesterday by Attorney Benjamin Bachrach before the Federal Court of Appeals. It was insisted that the government under the terms of the Mann act must prove not only the commercial element but that the victim was compelled to lead an immoral life.

Attorney Bachrach asserted that two thousand girls are imported annually, the majority from France, by a syndicate of white slavers, and distributed through the country's centers of population, including New York, Chicago, San Francisco, Omaha, Denver, Los Angeles and Seattle. He declared that the Mann law was intended to protect girls from being forced to a life of shame rather than to prevent the relations between a man and his mistress.

GEORGE ADE MAY RUN FOR  
SENATE AS PROGRESSIVE

LAPORTE, Ind., Jan. 23.—George Ade, playwright and author, is being urged to enter the race for United States Senator B. F. Shively's seat. Ade is a Progressive. Indiana next year will use the primary system in naming Shively's successor.

## Free Shooting Exhibition

There will be an exhibition shoot on South Main street at the city limits Saturday, Jan. 24th, at 1:30, by two of the best shots in the country. Mr. Hillis and Mr. Clements, representatives of the manufacturers of Remington and U. M. C. ammunition.

Everybody is invited to come down and see the shooting. For further information call at Livesey's Bike Shop.

Away

Scope of Exhibition Unusual in  
Number of Varieties  
Shown

If any argument were forthcoming concerning the high standard of bantams, pigeons and canaries raised in Orange county, adverse criticism would be instantly swept aside by an inspection of the prize lists at the California Bantam and Aviary Show being given at 216 East Fourth street.

Orange county birds not only held their own against birds brought here from a score of places in California but competed successfully with birds from some of the most famous bantam and pigeon yards in the country. Many first place awards have gone to birds from Santa Ana and Orange, and that in the keenest competition ever known in a show of the kind on this coast.

For one at all interested in feathered flocks, the bird and bantam show is a marvel. The varieties shown are many. Some of them were never before seen in this county.

Queen Polly, a trained parrot, has proven a feature of the exhibition. Performances by this remarkable bird are given each day at 11 a. m., 2:30, 5:30 and 8:30 p. m. Tonight after the 8:30 o'clock performance, a valuable canary bird is to be given away to some one of the visitors who have attended the show. A concert will be given by the Bantam Orchestra, composed of boys and girls.

The show deserves every encouragement from the public, and for that reason it is urged that persons attend the show.

The judges have made their awards. Following is a list of the awards among the bantams. The awards for the pigeons and canaries will be published tomorrow. The show rooms are on East Fourth street near Spurgeon, and are open all day and evening.

The bantam awards are:  
**BLACK BREASTED RED GAMES**  
Cocks  
1st, Reuter Bros., Santa Ana; 2nd, Burr Shafer, Santa Ana; 3rd, Earl McBurney, Santa Ana.

Hens  
1st, J. J. McCulloch, Inglewood; 2nd, Reuter Bros., Santa Ana; 3rd, Burr Shafer, Santa Ana.

Cockerels  
1st and 2nd, Dr. D. D. Davenport, Stockton.

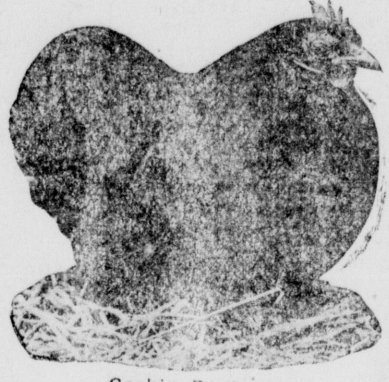

Pullets  
1st and 2nd, Dr. D. D. Davenport, Stockton.

Pens  
1st, Dr. D. D. Davenport, Stockton.

## Hill, Carden & Company's January Clearance Sale

Following our custom of previous years, of never carrying over goods from one season to another, we are offering not only our winter Suits and Overcoats, but many articles in men's furnishings at substantial discounts to clean up our stocks.

## 25% Discount on Suits and Overcoats

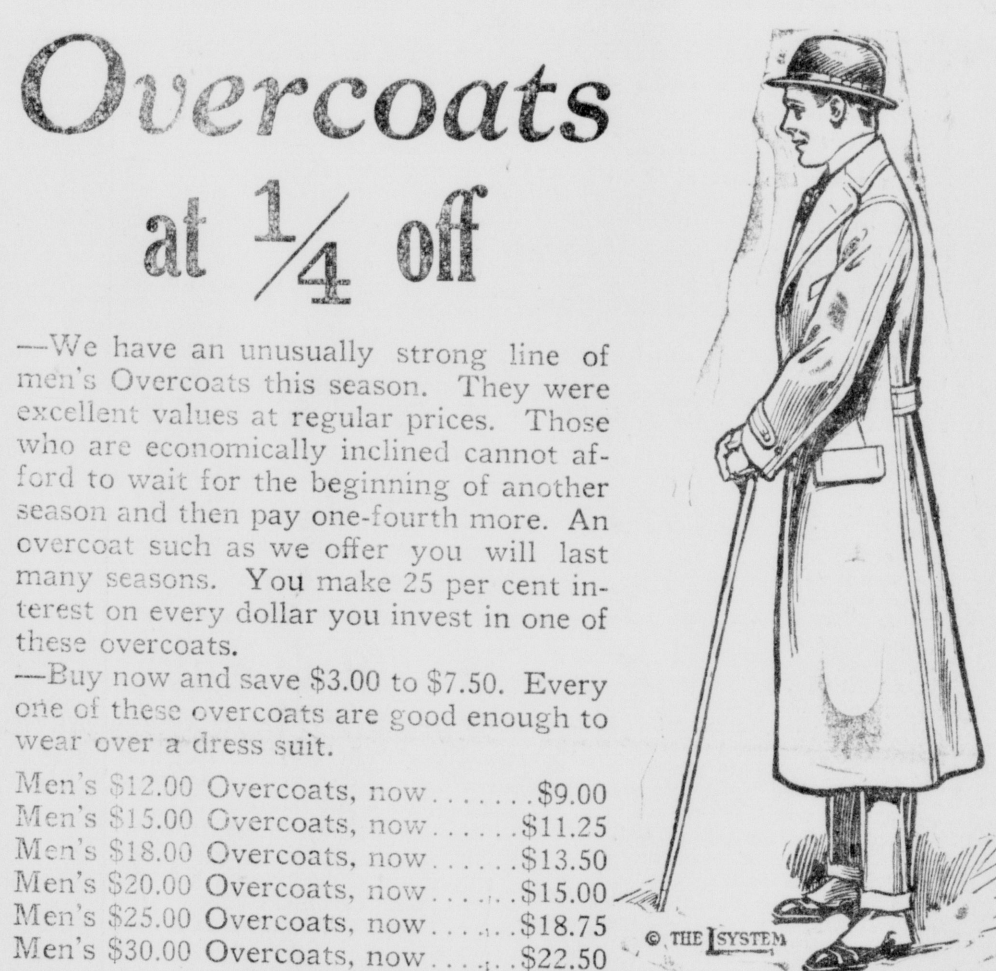

Big Reductions on Many Lines of Furnishings and Hats

### All Suits Overcoats at 1/4 off

—Our entire stock of men's Suits are now on sale at exactly one-fourth off the regular prices. Most of these suits are good all year round weights and of course the styles and fabrics are of the latest. There is no reason for reducing the price, except the fact that we never carry suits over from one season to the next. We sell you just as good and just as stylish a serge, cheviot or worsted suit now at one-fourth off as we can sell you two months hence at regular prices.

Men's \$12.00 Suits, now	\$9.00
Men's \$15.00 Suits, now	\$11.25
Men's \$18.00 Suits, now	\$13.50
Men's \$20.00 Suits, now	\$15.00
Men's \$25.00 Suits, now	\$18.75
Men's \$30.00 Suits, now	\$22.50

—We have an unusually strong line of men's Overcoats this season. They were excellent values at regular prices. Those who are economically inclined cannot afford to wait for the beginning of another season and then pay one-fourth more. An overcoat such as we offer you will last many seasons. You make 25 per cent interest on every dollar you invest in one of these overcoats.

—Buy now and save \$3.00 to \$7.50. Every one of these overcoats are good enough to wear over a dress suit.

Men's \$12.00 Overcoats, now	\$9.00
Men's \$15.00 Overcoats, now	\$11.25
Men's \$18.00 Overcoats, now	\$13.50
Men's \$20.00 Overcoats, now	\$15.00
Men's \$25.00 Overcoats, now	\$18.75
Men's \$30.00 Overcoats, now	\$22.50

### WORLD ART CENTER SUCCEEDS

ROME, Jan. 23.—The success of the project for the creation at Rome of an international world-center of art is now fully assured. The "art city," which will consist of permanent schools and art galleries erected by the leading nations of the world, will be on the site of the art exposition held at Rome three years ago. Both Italy and England have now completed their permanent structures, while Germany, Russia and Argentine Republic have just closed negotiations for theirs. The building which the United States erected at the time of the exposition for its art exhibit and which was later presented by the United States Government to the city of Rome is to be taken over by Serbia for its permanent gallery and school. Owing to the fact that the American academy at Rome is now being housed in the magnificent building erected for it by J. P. Morgan on the famous Janiculum Hill, the United States probably will not have a permanent palace of its own in the "art city."

### WOLGAST VS. RIVERS TONIGHT

MILWAUKEE, Wis., Jan. 23.—If Mexican Joe Rivers succeeds in beating the former lightweight champion, Ad Wolgast, tonight, he will be matched with Freddie Welsh, the English title holder, Young Shugrue, Johnny Dundee or Sapper O'Neil in a ten-round bout at Madison Square Garden next month. Rivers today appeared to be in fine shape. He expressed confidence of victory. Wolgast, realizing that tonight's fight will decide whether he can "come back," has trained conscientiously for the bout. He declared today he will win. Rivers will demand a twenty-round fight with Champion Ritchie on the Coast if he puts Wolgast to sleep tonight.

### CUTTER SERVICE SAVED 327 LIVES

WASHINGTON, Jan. 23.—Three hundred and twenty-seven lives, and property amounting to \$10,607,510 were saved in storms at sea in the fiscal year ending June 30, 1913, by the Revenue Cutter Service, according to the annual report made public today, while the total expenditure for keeping up the service amounted to \$2,471,532. While the saving of life and property was the most important performance of this arm of the service, it was not by any means all that was done. For instance, a tremendous danger to shipping, in the form of derelicts and other obstructions to navigation, was removed, thirty-one of these being destroyed. Derelicts which were recovered and restored to their owners were valued at \$18,900.

### SAYS POLICE DOGS ARE FAILURE

BERLIN, Jan. 22.—That the famous German "police dogs" are a failure in the tracking and capturing of criminals and that their services have been over-rated, is the report of Lieutenant of Police Most, director of the police dog breeding and training station near Strausberg. Lieutenant Most's testimony is corroborated by Dr. Zell, director of the zoological garden in Berlin. Both declare that the police dogs are of little value in police work in the big cities. Fifty tests made at the instance of the ministry of interior proved that the dogs held the trail of the quarry in but a comparatively small number of cases.

## NEW MILESTONE SET DURING THE WEEK

All Clear for Erecting City's  
First Modern Office  
Structure

ANOTHER FOLLOWS  
IN A SHORT TIME

Lots of New Houses Have Been  
Put Up, All of Which  
Are Occupied

This week marks the beginning of a new era in Santa Ana's business buildings. A number of occasions may have been picked for the beginning of the new era. The day that W. H. Spurgeon, the founder of the city, broke ground for the new post-office building was a fitting date to mark the change of the city into the skyscraper class yet this week seems fully as well worth calling to mind.

This week the last of the tenants from the old Spurgeon block at the southwest corner of Fourth and Sycamore streets moved out. Workmen were already busy tearing out the walls of the historic Spurgeon Hall. Some of the store tenants moved into Spurgeon Realty Company stores on Sycamore street. The last to go was the Crookshank-Beatty Company, which now occupies the splendid room formerly occupied by the postoffice.

The Spurgeon Company took out its building permit, and that set a new milestone in building affairs in this city. The permit was for \$100,000, the largest permit ever issued in this city.

On top of that the city trustees voted to issue a permit to the Farmers & Merchants National Bank for a five-story steel building at the southwest corner of Fourth and Main. Note that each of the big buildings is going up in the southwest corner, the only reason being that the buildings happen to own in the northwest direction. The bank permit has not yet been issued from the inspector's office, and when it comes another milestone will be established.

**City of Homes**  
While Santa Ana is moving rapidly ahead in its upbuilding in the business center, the city remains essentially a city of homes. It is a pride of the Chamber of Commerce that more people in Santa Ana in proportion to its size live in homes owned by them than in any other city of the state that the Chamber of Commerce has any record of. Santa Ana is sometimes spoken of as "The City of Own Owned Homes."

The building records for the past year show that the reputation of the city in that regard is being maintained.

That Santa Ana is growing steadily none can doubt. The city's progress has been one of steady progress. For years now each six months has found the city with more houses, and at the end of each such period there were few vacant houses to be found. It is that way right now. Vacant houses are scarce. In other words, the city is full of people, and those who have been watching the newcomers say that there are not only lots of newcomers but a lot of home-seekers. The newcomers are not here merely for a few weeks, but they have come to make Santa Ana their homes.

The city water office is one place where records show whether or not people are leaving town. When a house is vacated the water is turned off, unless it is occupied again immediately. The shut-off orders have been exceedingly few.

## Cleans Your House

Saves you work, money  
and time. Your house  
is absolutely clean.  
Takes the dust all out of  
the house. We will be  
glad to demonstrate our  
machines.

We are agents for the  
Eureka, Magic, Cadillac.

Eureka, \$35.00.  
Magic, \$35.00.  
Cadillac, \$28.00.

**Robertson & Packard**  
305 Main St.  
Home 138. Sunset 134.

### SENSITIVE PLANTS.

Sunshine at Night Doesn't Fool the  
Flowers in the Arctic.

The sensitiveness of plants is a never failing interest to all lovers of the woods and fields. Like a human being sensing a fall in the barometer and the coming of a rainstorm, so the clover in the meadow feels and shuts its leaves. A close observer says that a field that was white with blossoms has suddenly become quite changed by the approach of a heavy cloud or the falling of a light shower.

The common chickweed opens its blossom only when the sun is shining and counts on only the bright hours. When it closes its blossoms rain invariably follows. The sea purslane has the same habit. It never opens in cloudy weather and closes when the sun is low, about to sink. The scarlet pimpernel never exposes its flowers to a shower.

One of the naturalists in an arctic expedition noticed that, although the summer sun shone through the nights, the plants made no mistake, but when the sun got round to the west they closed up as if the sun had really set.

The common "four o'clock" almost always closes its flowers at that hour, and so many plants have that instinct that Linnaeus made a floral clock of flowering plants, each of which had its time for closing. The wood sorrel not only drops its leaves and shuts its purple veined flowers when it rains, but does the same if the ground near by is struck with a stick. The family of the oxalis has the same habit.—New York Sun.

### EGGS THAT CROAK.

Young Crocodiles Are Heard Before  
They Are Hatched.

That young unhatched crocodiles utter an audible croaking cry within the eggs in which they are laid is averred by knowledge, and it adds the cry is so loud and distinct that it can be heard when the eggs are buried under one or two yards of sand.

Dr. W. A. Lamborn tested the fact at Lagos on the West African coast. He heard a croaking noise from below a dry path, and, digging in the path to investigate the cause, he discovered thirteen crocodile's eggs at a depth of about eighteen inches. All the young crocodiles hatched out within half an hour of being dug up.

So far back as 1899 Dr. Voeltzkow noticed that unhatched Madagascar crocodiles uttered a cry from the egg at a depth of two yards and that any shock, as of a heavy tread, near the egg caused the baby crocodiles to produce this sound "with the mouth closed, as we produce hiccup sounds." In this way they inform the female crocodile when she visits the nest that they want her aid, whereupon she scrapes the sand away and they emerge.

### Apples With Worms.

May it not be that we get a keener pleasure out of eating an imperfect apple than a perfect one? It is neither the best possible apple, which would be perfect, nor the worst possible apple, which would have a kind of negative perfection; it has a worm at the core. But I wonder whether we do not enjoy it more because we have to eat the more carefully to keep from eating him. Besides, he arouses in our mind all sorts of questionings. Why is he there? What kind of worm is he? How did he get in? How would he have got out if we had not ousted him? And—note this—what sort of apple would it have been if he had taken up his residence elsewhere? The perfect apple could have roused no queries which the defective apple does not. The same subtle influences went to make both—the same elements, the same forces, the same chemical processes. But the defective apple has in addition to all these—the worm.—Robert M. Gay in Atlantic.

### Cocaine and Crime.

Police authorities have come to regard cocaine as one of the recognized sources of crime. The cocaine fiend seems to have his moral sense destroyed. The morphia devotee is often a man of refined and elevated thought, with delicate perceptions and with a keen sense of honor and obligations, except that he will always lie and deceive to get possession of his needed "dose." In his sober moments the alcoholic fiend is often a man of conspicuous honor. The cocaine fiend seems different. It is believed that cocaine directly stimulates to evil passions and evil deeds.—Family Doctor.

### Hollow Tooth Ache.

If you have a hollow tooth and it aches out a piece of clove to fit the cavity and put it in lightly, allowing the upper part to stick out like a cork in a bottle. It will soon swell, keeping the air from the nerve, and the pain will cease until the clove drops out, when it may be replaced by another.—Exchange.

### Steady Employment.

"It's lucky I should meet you, Smith. There's a little bill you owe Timkins, the tailor. He's commissioned me to collect it."  
"Has he, old man? Well, I'm glad you've got a permanent job at last."—London Tatler.

### Impertinent.

"I remember very well the first dollar I ever put in the bank."  
"The first? Then you have put in more than one?"—New Orleans Picayune.

### Just a Deduction.

"What is his sphere in life?"  
"Well, judging from the circle of his acquaintances, I'd say he was a rounder."—California Pelican.

## Why 1914 Is Certain To Be A Record Year

If nothing else were available to point the answer, the fact that two modern office buildings, one four stories and the other five stories, would be sufficient.

General optimism and prospects for development all over Orange county were never better.

In spite of 250 new houses being built in the last year and constant building going ahead, houses to rent are exceedingly scarce. The city is growing in population rapidly.

Rain, plenty of it, insures good crops of sugar beets, lima beans, grain and other annuals. As fine oranges and lemons as ever grew on trees are in the orchards of the county. Orange county's marvelous diversity of crops will bring a wonderful harvest this year.

## TO INCREASE THE ACREAGE SET TO CHILI PEPPERS

Garden Grove News: There seems to be a movement toward putting in a much larger acreage to chili peppers this season. It has been estimated that the acreage would be doubled. This may be too large an estimate but it is quite evident that there will be a large increase. Last season there was within this territory about 700 acres of peppers. This season there will probably be from ten to twelve hundred. With the coming of the new dryer to Garden Grove where the time for drying the green product is cut down about one-half, there is a new interest in this crop. Many days are going into the chilis more extensively than ever.

It seems to be probable that before long there will be a canning factory in this section for the handling of home grown produce. The chili pepper industry alone would seem to almost justify the erection of a plant.

## SIEVERS MAKE HEAVY INVESTMENT IN RICH PLACENTIA RANCHES

Placentia Courier: Wm. H. Sievers and J. B. Sievers have purchased the twenty-acre ranch of Roscoe Neal and the ten-acre ranch of Mill Miller just south of town. The consideration is unknown, but Mr. Neal recently refused \$25,000 for his place.

Mr. W. H. Sievers has also acquired a thirty-acre ranch at La Habra of John Scott. This is in young bearing Valencia. An eight and one-half acre tract near Whittier was traded in on the ranch.

## LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush  
Kidneys if Bladder  
Bothers You

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Advertisement.

## A PRACTICAL HIGH SCHOOL COURSE URGED

CRESTON, Iowa, Jan. 23.—A more practical system of education in high schools, that will give graduates a basis for entering business immediately without the necessity for a college training or special study after they leave the high school, was urged here today by Governor Clarke of Iowa, at the dedication ceremonies of the local high school building.

Governor Clarke declared that the old system of training, the high school graduate with a view to his entrance into a college or a university had worn out its stay, and that what was wanted in the present day was a course that will fit high school graduates for immediate entrance in to business life.

## Notice to Users of Water Stock

—The Santiago Orange Growers Association have 4.40 shares of water stock for rent to the highest bidder for the year 1914. Sealed bids will be received for this stock up to and including Jan. 24, 1914. Address all bids to the secretary, W. M. Smart, Orange, Calif.

## ANAHEIM TO HAVE AN ICE PLANT SOON

Anaheim Herald: Anaheim is to have a twenty-ton capacity ice plant and cold storage combined which will cost in the neighborhood of \$25,000. The plant will not be a local proposition entirely but will have a great deal of local capital in it. The remainder of the money which will be necessary to put up the plant will be furnished by the National Finance Co., of Los Angeles.

Work of selling stock in the corporation is now in progress, and as soon as enough has been subscribed, the construction of the plant will be commenced. It is planned that the control of the factory such as a manager, the directors, etc., shall be chosen from this city.

The important matter which was transacted at the meeting yesterday afternoon was the decision of the committee of the Board of Trade to withdraw from consideration of the erection of an ice factory and cold storage plant with entirely local capital interest.

## BUILDING PERMITS ISSUED RECENTLY

To Fred Nieblas, with W. N. Carter, Jr., contractor, 5-room house at 918 South Flower, \$1500.

To Charles Leak, 6-room house at 624 East Third, \$2000.

To J. A. Benjamin, 5-room cottage at 305 Fruit street, \$1200.

To Walter Walker, dwelling on West Third street, \$1600; N. L. Galbraith, contractor.

To O. Rodriguez, one-room brick barber shop at 314 Bush, \$300.

To G. C. Pickering, 5-room house at 712 South Main, \$1700.

To George Rohrs, with H. A. Skiles, contractor, 7-room house on East Seventeenth, \$3000.

To D. W. Koser, 4-room house on South Flower street, \$800.

To Mrs. C. E. Brock, with R. C. McMillan contractor, 4-room house at 405 Minter, \$1150.

To Elmo Carpenter, 5-room house at 1416 West Sixth, \$1200.

To G. P. Hill, with James O'Brien contractor, repairs at 1002 Spurgeon, \$775.

To E. C. Frambes, 4-room house at corner French and First, \$2000.

To C. N. Grace, repairs at 1033 West Sixth, \$125.

To W. H. Spurgeon Realty Company, 4-story steel and brick building at corner Fourth and Sycamore, \$100,000.

To H. P. Holmes, garage at 2005 North Broadway, \$40.

To J. A. Sweet, with Charles Carey contractor, repairs at Tenth and Main, \$500.

To Mrs. M. Van Dusen, with W. W. Melvin contractor, 4-room house at 108 North Bristol, \$1,000.

To H. P. Holmes, garage at 2005 North Broadway, \$40.

To J. A. Sweet, with Charles Carey contractor, repairs at Tenth and Main, \$500.

To Mrs. M. Van Dusen, with W. W. Melvin contractor, 4-room house at 108 North Bristol, \$1,000.

To H. P. Holmes, garage at 2005 North Broadway, \$40.

## GARDEN GROVE BIG SHIPPER

Outgoing Tonnage Far Greater  
Than Incoming—Six  
Months' Average

Garden Grove News: Garden Grove is one of the big shipping points on the entire Pacific Electric system. We do not mean this in a relative sense, but the fact is that in the actual output of cars of freight we rank with the first. And these other points which draw from a larger territory. It is true that the Pacific Electric railway was largely instrumental in building up Garden Grove. Now Garden Grove is doing its share toward building up the Pacific Electric. The following exact and official figures tell a very significant story. They show the monthly shipments of incoming freight and the outgoing shipments, during a period of six months beginning with June, 1913.

Month	Tons Incoming	Tons Outgoing
June	500	200
July	700	300
August	500	3,000
September	600	4,200
October	800	2,400
November	800	700
	3,900	10,800

This makes a daily average in the car shipments for six months of six cars.

These figures do not include the express shipments. We have not the figures covering such shipments. But they are large. Berries and small fruits, garden produce and much perishable truck are sent by express.

The increasing freight shipments tax the railway facilities here to the utmost. It appears that the chili output this season will be nearly doubled, from the acreage being contracted for. It will probably be necessary to increase the sidetracks to provide room for the cars needed to handle the shipments.

## PITTSBURG THIRD AS MARKET

PITTSBURG, Jan. 23.—Pittsburg stands third among the cities of the United States as a produce market. According to reports published today Pittsburg commission merchants distributed more than 37,300 cars last year, an increase of 2500 cars over 1912, putting the city ahead of all but New York and Chicago. About 65 per cent of the shipments were sold in Greater Pittsburg. The remainder was sold within a surrounding territory approximating 40,000 square miles and including the cities of Cumberland, Md., Richmond, Va., Altoona, Pa., Canton, O., Charleston, W. Va., and Oil City, Pa. The population of the zone is about 700,000.

## Worms the Cause of Your Child's Pains

A foul, disagreeable breath, dark circles around the eyes, at times feverish, with great thirst, cheeks flushed and then pale, abdomen swollen with sharp cramping pains are all indications of worms. Don't let your child suffer. Kickapoo Worm Killer will give sure relief. It kills the worms—while its laxative effect acts gently to the health of your child by removing the dangerous and disagreeable effects of worms and parasites from the system. Kickapoo Worm Killer, as a health producer should be in every household. Perfectly safe. Buy a box today. Price 25c. All druggists or by mail. Kickapoo Indian Medicine, Philadelphia or St. Louis—Advertisement.

## FROM CALIFORNIA TO KANSAS IN A FIVE PASSENGER FORD

CONTRIBUTED BY ONE WHO RODE IN THE FORD.

A party of four started from Orange Oct. 1, on a pleasure trip; Mr. O. and son, in a 30-horse power machine, going to Kansas City, and Mr. and Mrs. C. C. Bussinger in a five-passenger Ford to Garden City, Kansas.

Both machines were loaded to their full capacity, with a camping outfit, each consisting of a tent, bedding, camp stools, grub box, all necessary tools and machine repairs, and clothing for all kinds of weather and circumstances. After reaching the desert we often carried extra gasoline and from five to ten gallons of water.

The second morning we started at 6 o'clock and at 11 o'clock we had driven fifteen miles. Water in both machines boiling and backs lame from shoveling sand. The little Ford would walk right through when the big machine would have to be dug out; run its length, then shovel again.

We left California at Blythe, crossing the Colorado river on a cable ferry, the third day out. After leaving the river valley we encountered very little sand.

We took a short cut across desert and mountain to the Grand Canyon of Arizona. The road we followed over the first range of mountains was little more than a cow trail covered with cactus, filling the tires with their little fine needles, but not causing any trouble.

Here there is a great variety of cacti, one kind being two or three feet in diameter and fifteen to twenty feet high, nearly as large at the top as at the bottom, with one or two stubby arms, standing with an air of "I am master of the desert."

Washouts down the mountains made havoc of the road; so we worked out many a man's road tax. All through this section the quail were many, the drivers shooting them from the wheels, and the "cooks" scattering feathers while enjoying the scenery; so when camp time came the birds were ready for the pot.

The fourth night we camped in a narrow, deep canyon, with perpendicular walls a thousand feet high and about fifteen miles long; a dry river bed in summer, but a path for a rushing torrent in winter. In twenty minutes our camp was made, tents up, camp fires burning, and the air filled with the aroma of coffee, quail and potatoes; which appetites our already over-whetted appetites.

After supper, we put away our dirty dishes and went to bed with unwashed faces, for all the water we had was from our canteens. We removed the cushions from the cars into the tent and spread on them our blankets and slept a peaceful sleep, dreaming of by-gone tales of the desert. We sometimes traveled fifty miles between neighbors and water; and as

we camped wherever night overtook us, we always carried a supply of water.

As soon as light began to break in the east we were up and busy and our machines started before the sun appeared above the horizon; stopping at 11 o'clock, commencing breakfast with the noon meal.

We found the main traveled road again in the Skull Valley, and from then on to Prescott, Ariz., the roads were fine, over a beautiful, picturesque range of mountains. The grades were long, winding and steep; the air crisp that morning, and we shot around curves enjoying the beautiful wooded hills—when pop! went a tire on the big machine. Its second. The "cooks" played along the little mountain stream among the rocks and trees while the drivers patched the tire.

Prescott nestles in a little valley surrounded by mountains; so we had more hills to conquer; the little Ford shot over them like a roller coaster. On one hill the big car tried three times and at last turned around and went up backwards.

That night we camped in a clump of juniper trees and built a great bon fire to keep away Jack Frost, but next morning we found his tracks in the basin.

We were anxious to push on to the Grand Canyon, when, within a mile, the big car stripped its gears and was hauled in and repairs telegraphed for.

We camped a week within a stone's throw of the rim and feasted our eyes on the gorgeous colors of this wonderful assure that stretches out below us thirty miles from rim to rim and seven miles down the trail to the roaring Colorado. We secured mules at \$5 apiece and went down, starting at 7 a.m. and returning at 6 p.m., spending an hour at the river for lunch.

Once on the road again we passed through a country of magnificent distances, almost void of habitation, but full of interest; a beautiful pine forest that stretched for miles from the canyon's rim; the "Painted Desert," with its variety of bright colors; the ruins of the Cliff Dwellers; the extinct volcanoes, with their great black base and red topped craters. A bunch of Indians had stilled on the hill-side, with skinny ponies to pull their great heavy loads.

Next came the Petrified Forest, where we found the colors of the Grand Canyon and the Painted Desert turned into stone, to me the grandest sight and strangest phenomenon of all. I wanted to carry away an entire tree, some five feet in diameter, but there was no room in the already over-loaded Ford, so I had to content myself with only an armful of pieces.

Jack rabbits or birds of any kind were rarely seen here; but we got a few shots at coyotes in the sheep country back near Ashfork. One day near Winslow, while eating our noon meal, a herd of about twenty-five antelope galloped by at close range, knowing the law was on their side.

The stillness of the desert was annoyance to the ears when the machines were stopped, for there was no sound but ours to be heard.

We crossed into New Mexico at Springer and came to the railroad again at Socorro, passing little Mexican adobe houses and towns. Not a native would turn out or give an inch of the road; but sat in his empty wagon looking cross and surly. We crossed the Rio Grande and went north over a wide stretch of grassy plain.

The big car broke its rear axle seventy-five miles from Albuquerque, out in the big open space with nothing but ground and sky around it. The little Ford was game and carried two extra passengers. She covered a few miles—when, pop! went the inner tube. A new one was quickly put in and she was off for Albuquerque, where a new axle was wired for and came within a week.

Here we saw a little farming and truck raising near the city; the only land under cultivation we had seen since leaving California.

Our next stop was old Santa Fe, with its narrow, crooked streets; rows of low adobe buildings, with floors a step below the sidewalk. The oldest church in the United States, built in 1530, is still used; the old bell weighing 780 pounds, cast and hammered in Spain in 1356 and brought here 150 years ago, is made of copper, silver, iron and gold, four inches thick and has three clear musical tones. The old state house is about the size of an ordinary county courthouse. Here, as in all Mexican towns, we found the ever welcome plaza; the houses built against the sidewalks, with all the yards in the rear.

Just out of town we encountered a short, steep hill, and with three hitches the little Ford pulled the big car to the top with block and tackle.

Nov. 2 we camped on the bank of Mora river, and slept while it drizzled rain; our first bit of bad weather.

Next morning we drove to Wagon Mound, a little Spanish village, a distance of twenty-two miles, facing a cold north wind, with a flying snow. Here we ran our machines into a blacksmith shop, the only shelter, and stayed two days. In a few hours the ground was white with snow, about six inches falling during the day. We secured rooms of the blacksmith's wife, who could not talk English.

On the third day the roads were good and we drove over the Raton mountains, crossing the line into Colorado. Through the coat mining district, some were working; some quiet, on account of the strike. We came over the hills down into the smoky streets of Trinidad, which were patrolled by United States soldiers. The drive to La Junta was through the most barren, lonesome, forsaken looking country of all.

So far we had driven 1650 miles. The Ford averaging twenty-two miles to the gallon of gas. The thirty-horse power machine averaged eleven and one-half miles to the gallon.

Here the party divided, Mr. O. go

MEXICAN WOMEN GOING TO FRONT IN GENERAL VILLA'S SIEGE OF THE NORTH

When a rebel army in Mexico moves, it causes something like a general house-moving, for the families of many soldiers insist on accompanying them to the front. Not only do the women go, but they take their children along with them. This

illustration shows the women loaded at home they know they will be in danger from the first company of soldiers of the enemy which may reach their town. The determination to follow their husbands is due, like safety is with the rebel army.

ing on east, and we took rooms for a short stay to meet our sister, who stopped over a few days on her return trip from Europe.

The Ford travelers, not being satisfied to stay in one place long, drove to Pueblo and ate Thanksgiving turkey with old friends.

A drive was enjoyed to Canyon City and to the top of the Royal Gorge, where we looked down into the great narrow cut 3000 feet below.

While Kansas was enjoying a good rain we were snow bound for two weeks.

We arrived in Garden City, Kansas, Dec. 18, in mud hoo deep, nothing to be seen of the little Ford but a moving ball of ever clinging mud; but still game, like the

"Optimist who fell ten stories. And at each window bar, He shouts to his friends: 'All right so far!'"

Woman's Fads and Fancies

NEW YORK, Jan. 22.—Nowadays it is hard to tell from the conversation whether modistes and dress-makers are talking about the French dressing on a salad or French dressing on a lady. Calinary art and sartorial art are indeed akin, and a raspberry confection on a fashion plate is quite as delectable as one on a dessert plate. There seems to be a perfect passion for all the light edible tones of oyster, biscuit, champagne, cafe au lait and cream for street costumes. Combined with dark fur they are truly stunning and a decided relief from the dark toned blue, brown and black street suits to which we have so long been addicted.

A lovely biscuit duvetya trimmed in skunk has a four-inch band of skunk midway of the skirt to simulate a tunic and another four-inch band around the hem. A wide grade of old blue moire ribbon eight inches wide finishes in the back like a Japanese obi and gives a smart square effect to the figure.

The coat hangs in a loose sack from the shoulders in back to vent below the hips. In front it is cut short almost to the bust and buttoned on the side with four square old blue buttons. The collar and the cuffs of the sleeves are of skunk. A pale blue combined with fitch, and a delicate pink duvetya with seal skin, while not so gastronomically named, certainly looks good enough to eat.

This craze for the delicate shades will no doubt bring joy to the dry cleaner's heart and much gold to his co'er. The vivid shades that the futurists brought forth have faded quite away, and indeed the only bright hue which has the sartorial sanction for smart street wear is red in every and any conceivable shade—cherry, beet, tomato, raspberry, strawberry and wine to suit your taste.

The last new use for fur was the anklet of fitch, ermine or sable, according to your furry fancy, and now it has gone to the other extreme and appeared as head band. Quite the chickest addition to the evening costume is a flat circlet of skunk wreathing the brow of the debutante or the matron. A soft crush of chiffon in any desired tone combined with it breaks the rather hard line of the fur against your head and helps distinguish your own hair from the hair of the defunct animal.

The round, balls of fluffy fur like buttons are charming additions to a three-piece cloth suit and quite the only trimming necessary, while the new pouch bags of velour and plush are lovely fur banded to match the costume of the carrier.

Beads in all the garish colors are used lavishly in quaint designs as trimmings on fur turbans. Done into dragons, birds, beasts and butterflies they also adorn the patrician silk clad ankles of many a haut monde turkey trotter.

If you want to be a vision of love-liness when your own particular tired business man comes home for a late dinner slip into one of these adorable pink or blue crepe de chine negligees outlined in swansdown with cap and ribbon slippers edged in the same snowy fluff. Don't forget a floating glimpse of a lace edged crepe de chine petticoat also swansdown banded and he will sure be sure to forgive you for not dressing to dine.

Nothing more temptingly fascinating than these swansdown trimmed sets have been seen in the white enamel cases of the shops where the negligees grow, for a long time.

The robes themselves are cut all in a loose sack effect, each side crossing in front and fastening on the opposite side in a characteristic Paul Poiret manner.

To match up the stunning new silk knitted sweaters Oriental turbans are being shown formed from

TEMPLE, TEXAS, Jan. 23.—Plans have been completed here for fighting again, the famous battle of San Jacinto, which decided Texas her independence from Mexican rule. The event will celebrate the anniversary of the event which took place on April 21, 1836, and to immortalize the battle in moving pictures. The First Cavalry of the Texas National Guard will enact the fight. Numerous monuments on the original battlefield will prevent its production there, so it was formally decided today to have the "battle" occur on the outskirts of Houston.

Hundreds of Santa Ana people pronounced Dr. Lane's Lubrico a God-send to sufferers from constipation. Drug-ists refund money if it fails to cure day.

TO RE-FIGHT "SAN JACINTO" FOR MOVIES

HOUSTON, Texas, Jan. 23.—Plans have been completed here for fighting again, the famous battle of San Jacinto, which decided Texas her independence from Mexican rule. The event will celebrate the anniversary of the event which took place on April 21, 1836, and to immortalize the battle in moving pictures. The First Cavalry of the Texas National Guard will enact the fight. Numerous monuments on the original battlefield will prevent its production there, so it was formally decided today to have the "battle" occur on the outskirts of Houston.

TEMPLE, TEXAS, Jan. 23.—It is considered certain here that Temple citizens will adopt the necessary changes contained in the new charter, draft of which is just completed, providing for a town manager form of government like that of Dayton, Ohio. The proposed charter provides for the election of commissioners who in turn will select a town manager. The manager will have supreme control and be held accountable for all departments of the municipal government. Temple will be the third town in Texas to adopt the town manager form in the past few months. Denton and Amarillo having already taken this step.

CURRENCY COMMITTEE MEETING IN ST. LOUIS

ST. LOUIS, Jan. 23.—Hearings were begun yesterday by the organization committee under the new currency law. Prominent bankers, financiers and merchants have offered to attend the hearings which will continue to

## NOTICE to HOUSEKEEPERS

Desiring to serve its subscribers, the Santa Ana Daily Register has contracted for a large number of the E Z VACUUM CLEANER—a number large enough to supply all its subscribers who may want this "Housekeeper's Delight," and at a price

Less Than Half the Regular Retail Price

All that is necessary in order to get a

**\$12.50 Vacuum Cleaner for \$5.40**

is that you be or become a subscriber for the Santa Ana Daily Register

No Electricity, no Brush to wear out your floor covering.

Get rid of the dust entirely by using an E Z Vacuum Cleaner. The E Z combines all the good points of the electric cleaners and has none of its drawbacks. It works like a carpet sweeper; no harder to operate, simple in construction, and takes out all the dust and dirt. It means a saving of energy, and insures sanitary floors and carpets.

**\$12.50  
Vacuum  
Cleaner  
for  
\$5.40**

This Cleaner was never sold for less than \$12.50. You may get one for \$5.40 by subscribing for the Daily Register for six months at the regular subscription price of 50c per month.

Phone and we will gladly give you a free demonstration at your home. We wish to show you what the machine will do on your own carpet. We cannot think of a better way to prove the merits of this truly wonderful cleaner.

**NO ELECTRICITY NEEDED--NO BRUSH TO WEAR OUT YOUR RUGS AND CARPETS**

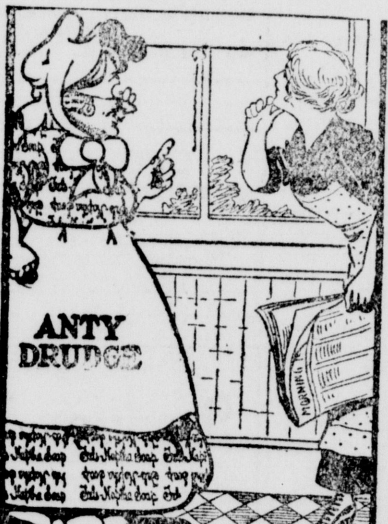

The E Z has a stronger suction than any other cleaner and gets not only the surface dirt but also the dirt that is in and beneath the floor covering.

Use an E Z Cleaner and have a sanitary home. You want a cleaner that is always ready, that you can handle yourself. A child can operate the E Z Cleaner.

**\$12.50  
Vacuum  
Cleaner  
for  
\$5.40**

Application Blank.

ANTY DRUDGE

Mrs. Always-troubled—"I guess there's not much use starting in to wash now, because the paper says that rain is expected this afternoon, and if I washed now I couldn't get the clothes hung up before it rained."

Anty Drudge—"Why, it's only 10 o'clock now, and there's a fine, brisk wind blowing. You run over to the grocery store and get some Fels-Naptha Soap. You'd better get a carton while you're about it, because you'll never want to use any other after you've tried Fels-Naptha. That will save you the time you usually waste in boiling the clothes, and they'll be dry before it rains."

There's always a right and wrong way to do things. And a hard way and an easy way. Every sensible woman wants to do her work the easy way, if it is the right way. There's only one easy way. That's the Fels-Naptha way—and it's the right way. Always use cool or lukewarm water.

Full directions are on the Red and Green Wrapper. Better buy Fels-Naptha by the carton or box. Fels & Co., Philadelphia.

# A Potpourri of News and Views

From the Los Angeles Financial News

## Coinage in 1913

Almost \$2,000,000 more money was coined in the United States mint in Philadelphia during 1913 than during 1912. There was a general increase in the coining of almost all metals, but most of the increase represents the manufacture of the new Buffalo nickels.

In the annual report of John H. Landis, superintendent of the mint, it is shown that during 1913 there were 160,667,826 pieces of money coined from all metals, amounting to \$20,182,841. During 1912 the coining was 121,653,122 pieces and the money value \$18,342,483. Last year there were \$3,042,611 worth of nickels struck, while in the year previous the nickels amounted to \$1,311,835.

No money was coined for foreign countries at the mint during last year, although in 1912 a large number of dimes were struck for Costa Rica and more than \$500,000 in silver dollars were coined for San Salvador.

The coining of 1914 nickels, the only coining thus far ordered by the Treasury Department for use in the United States, was begun Monday. An order has been received, however, for the coining of thousands of dollars for San Salvador, and this work is expected to be started in the near future. As usual, all dies used during the past year were destroyed.

## May Operate on Disputed Land

At a conference held the past week between representatives of the oil industry in California and Federal officials, an agreement was reached which is of great interest to the oil men not only of this State, but of the country at large. The Midway Northern Oil Company is the one directly benefited but the agreement also applies to others operating in the Midway field who are working upon property which the Government seeks to recover, suits for which are now pending in the Federal Courts.

Under this agreement the Midway Northern Oil Company is permitted to resume operations upon the lands in question pending final adjudication by the Court, the earnings of the company, or rather the receipts from the sale of the output from the wells thereon, to be placed in escrow until the action is finally decided by the Court. The property affected is that withdrawn by order of President Taft in 1909.

It is understood that the Standard Oil Company has agreed to take the output of the Midway Northern.

The lands involved in the suit cover 2,000,000 acres in Kern County. The case has been submitted to the Federal Court, final arguments having been heard on Saturday. The case has been taken under advisement.

## Carving Union Pacific Melon

Ninety-one and a half million dollars was in the melon which the Union Pacific Railroad carved on Thursday and distributed among its stockholders. This was in the shape of \$85,000,000 of Baltimore and Ohio stock and \$6,500,000 in cash, or \$3 per share in cash. The stock distribution is equivalent to an extra dividend of 33 per cent. The distribution of the stock is to decrease the earning power of the Union Pacific stock two per cent. In the statement of the executive committee it is proposed to distribute to the holder of each share of Union Pacific common, \$12 par value, in Baltimore and Ohio preferred, now yielding at four per cent, 48 cents, and \$22.50 par value in Baltimore and Ohio common, now yielding at six per cent, \$1.35, and \$3 in cash, say at six per cent per annum, 18 cents, or a total of \$2.01.

## Cost of Meat Doubled

Although the meat supply kept pace with population, growth in the decade from 1899 to 1909, the price soared to nearly double the 1899 figure, according to a census bulletin just issued. Meat "on the hoof" went up 75.5 per cent, while the dressed product showed the slightly smaller percentage of 73.8.

Americans were eating 105 pounds of beef, veal and mutton per capita in 1909, as against 106 in 1899; although the total per capita meat production in 1909 was 107 pounds. Sixty-five per cent of the meat supply was furnished by the packing house. The country's total product in 1909 was \$8,359,815 and the cost of the meat was \$1,202,327,754. The total meat supply was 9,179,605,600 pounds.

## Cattle Imports and Tariff

The effect of the Underwood-Simmons tariff law on the importation of cattle is indicated by shipments from Canada and Mexico to the United States within the last two months.

"Imported cattle inspected by the Bureau of Animal Industry during the months of October and November," said the office of information of the Department of Agriculture Monday, "numbered 209,327 head, as compared with 72,240 for the corresponding period of 1912. All of these cattle came from Canada and Mexico except 447 head of purebred cattle, for breeding purposes, imported from Great Britain.

"The imports were classified as follows: October, for immediate slaughter, 73,166; as stockers and feeders, 54,565; for dairy and breeding purposes, 733; total, 128,470. November, for immediate slaughter, 39,086; as stockers and feeders, 41,543; for dairy and breeding purposes, 223; total, 80,857."

## Southern Pacific Earnings

For the fiscal year ended June 30, 1913, the Southern Pacific Railroad earned 9.55 per cent on its outstanding capital stock, compared with 7.92 per cent in 1912. Gross earnings increased about \$1,250,000, while the net income was augmented \$4,795,121. The surplus available for dividends was swelled \$5,264,654. The bonded debt of the company was increased \$23,909,430.

## Bakersfield Bank Clearings

Bank clearings for the year 1913 in Bakersfield were \$23,656,106.08. The heaviest month was May, when the amount was \$2,465,599.51.

## Servia Wants Money

A Servian loan of \$50,000,000 is to be floated in Paris guaranteed by the Servian Government monopolies. Financial groups will take \$15,000,000 and the public will be asked to take the remainder.

## Regarding Returns for Income Tax

During the past week the Treasury Department has sent out forms and regulations to be followed in making returns of income subject to the new income tax. Every citizen of the United States, whether residing at home or abroad, every person residing in the United States, and every non-resident alien who has income from United States investments of \$3000 or over, must make such return.

These regulations provide that return must be in the hands of the Collector of Internal Revenue in the district where the taxpayer lives or where he has his principal place of business, not later than March 1, failure to observe this limit to be punished with fines ranging from \$20 to \$1000.

Refusal or neglect to file returns, except in case of sickness or absence, will result in an addition of fifty per cent to the tax assessed. In case of false or fraudulent return 100 per cent will be added to the tax assessed and any person required to make, render, sign or verify such return who makes a false or fraudulent statement with intent to defeat or evade the tax, will be guilty of a misdemeanor and subject to a fine of not more than \$2000 or imprisonment for one year or both. An extension of thirty days from March 1 in case of sickness or absence may be allowed by the proper collector, provided an application is made by the individual concerned. Returns must be accompanied by oath or affirmation.

For 1913 the specific exemptions will be \$2500 or \$3333.33 in the case of a married person, and in future years \$2000 and \$4000. Where the tax has been withheld on part of the income at the source, or where part of the income comes as dividends upon stock of a corporation which is taxable under the corporation tax section of the law, the regulations set forth that such income shall be deducted from the individual's total income upon computing the amount on which he is taxable.

The law imposes a tax of one per cent and provides that individuals who have an income over \$20,000 and not more than \$50,000 shall pay an additional tax of one per cent on such amount; on all over \$50,000 and not over \$75,000, two per cent; on all over \$75,000 and not over \$100,000, three per cent; on all over \$100,000 and not over \$250,000, four per cent; on all over \$250,000 and not over \$500,000, five per cent, and on all over \$500,000, six per cent.

Expenses for medical attendance, store accounts, family supplies, wages of domestic servants, cost of board, room or house rent, shall not be deducted from gross income, and individuals who own their own residences cannot be deducted from the estimated value of the rent.

The farmer is required to include in his net income all money from produce and animals sold for wool and hides of slaughtered animals, provided they are sold. He may deduct the sums actually paid for the animals sold or slaughtered during the year, but the value of animals raised shall not be deducted as expenses or loss. The farmer also may deduct money paid as expenses for producing farm products, livestock, etc., and for repairs for the current year. The cost of tools or machinery is deductible, but not to exceed in value those replaced.

Persons receiving fees or emoluments for professional or other services, must include all actual receipts for services during the year, together with all unpaid accounts, charges for service or contingent income for the year, "if good and collectable."

Debts contracted within a current year may be deducted from gross income when found worthless, but not before legal proceedings have proved unavailing. Debts contracted in previous years, which eventually prove worthless, may be deducted substantially under the head of losses, when they are charged off.

Amounts due or accrued to individual members of a partnership from net earnings shall be deducted in the return of the individual, whether distributed or not, and United States pensions must be included as income. Estimated advance of real estate value is not required to be reported unless placed as an asset on the individual's books. Costs of suit and other legal proceedings arising out of ordinary business may be treated as expense and deducted from gross income of a business. In computing net income compensation of all officers and employees of a State or any political subdivision thereof shall be excluded, but not where paid by the United States.

## Espee Losses in Mexico

That General Sherman's explanation of war is the only one, is shown by the annual report of the Southern Pacific Railroad regarding the lines of that company in the Mexican republic. Says the report:

"The Southern Pacific Railroad Company of Mexico during the year continued to suffer from revolutionary disturbances. Not only were structures and equipment destroyed, but business was practically suspended and development of prospective tariff retarded. It is estimated that the loss on account of interruption to traffic from the beginning of the Madero revolution in 1910, to June 30, 1913, amounted to approximately 6,000,000 pesos. During this period the cost of maintaining the property has amounted to about 1,020,000 pesos in excess of the revenue collected. Claims for loss and damage caused by the revolutionary disturbances amounting to 287,800 pesos, have recently been approved by the Mexican Government, but have not been paid. Claims amounting to 862,000 pesos, covering additional losses, will be presented to the Mexican Government in due course. On account of the fluctuation on the rate of exchange, due to revolutionary disturbances in Mexico, it is not practicable to state these amounts in United States gold."

## Sell Timber on Forest Reserve

One of the most beautiful forest reserves in America, both from a scenic standpoint and in the class of timber, the Kaibab National Forest in Northern Arizona, is to be invaded by the woodman's ax, the Forestry Service having granted authority, which has been approved by Secretary of Agriculture Houston, to cut one billion feet of timber from the reserve. The purchasers are also given authority to construct a railway through the reserve which will connect the Grand Canyon of the Colorado with Utah and Colorado. The timber will be cut gradually over a period of twenty-five years.

## Divides Its Time

Under an arrangement just concluded by the State Railroad Commission, the work of that body will in the near future be divided equally between San Francisco and Los Angeles, two weeks each month being given to the two cities.

## Cotton at Calexico

This year the acreage that will be planted in cotton in the region about Calexico will be 20,000, as compared with 18,000 last year.

## Millions Saved on Phones

Through a reduction granted by the New York Telephone Company which becomes effective February 1, subscribers will save annually \$2,250,000.

## Brazilian Banks Fail

Forty-six banks in the principal towns and cities of Sao Paulo, Brazil, are involved in the failure of the Incorporado Company of Sao Paulo. The principal creditors are foreign banks.

## SAYS SEX TEACHING IS BOUND TO COME

Illinois Educator Says That Teachers Must Be Trained for That Work

CHAMPAIGN, Ill., Jan. 22.—Sex hygiene can never be taught successfully in the public schools until the minimum age and wage of the country girl school teacher is raised, in the opinion of Prof. W. B. Miller, secretary of the school of education of the University of Illinois. Reviewing the recent action of the Illinois State Teachers' Association in voting to create a section in the association for the "discussion of moral and religious subjects," looking toward sex education, and the contrary action of the Board of Education of Chicago in voting out sex lectures after four months' trial, Miller declared his belief that sex education eventually must come, but that it probably will have to be preceded by distinct preliminary changes in the school system.

"Of course, at the bottom of the question lies the primary fact that the parents ought to instruct their children," said Miller today, agreeing with Governor Dunne and other speakers before the recent state teachers' convention. "But so long as they do not, and there appears no likelihood that a majority of them will soon, the school system ought to provide for such degree of the education as seems desirable. Just how far such education should go will first have to be determined. It must be plain to every one that any course in physiology and hygiene, which entirely neglects the reproductive or productive organs and functions is incomplete. Educators must decide how to give boys and girls the same knowledge of these organs and functions as they do of the heart or stomach or eye."

"Despite the unfavorable start made in Chicago, it seems probable that a few more years of study and experimentation will develop the methods best applicable to city schools. But country schools have a peculiar difficulty. In Illinois, for example, and I believe the average of states will show the same condition, there are over three thousand school teachers receiving a salary of less than \$300 a year. I do not argue the merits of higher salaries here, but it is obvious that no persons of great experience and skill in teaching or great tact in the handling of children can be secured for this salary. What is the fact? Most of the teachers in the country schools are girls, barely past the minimum age for teachers and with absolutely no experience beyond the grades or perhaps a year or so of high school or normal work. It will never do to trust the teaching of the sex problem to these girls. The blind should not lead, and the unlearned cannot be expected to teach well."

"It all means then, that there must be a special training for teachers in the sex courses. It will come doubtless with the general tendency toward better teaching of teachers, through the enlargement of normals and colleges and university courses in education."

## IF MEALS HIT BACK AND STOMACH SOURS

"Pape's Diapepsin" Ends Stomach Misery, Indigestion in 5 Minutes

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can get blessed relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent boxes of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why they relieve sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach prep-aration, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery. Get some now, this minute, and rid yourself of stomach trouble and indigestion in five minutes.—Advertisement.

## Books and Magazines

Bring us your old Magazines and let us bind them into a beautiful set of new books. They will be books that your children will read with pleasure and profit. The magazine of today becomes history tomorrow—a reflex and mirror of current events of past days, years and decades. Also bring us the old books you love and let us rebind them for you. Prices and work guaranteed. REGISTER PUBLISHING CO. Take a stenotypy course at the Orange County Business College.

Wonderful Cough Remedy Dr. King's New Discovery is known everywhere as the remedy which "will surely stop a cough or cold." D. P. Lawson of Edison, Tenn., writes: "Dr. King's New Discovery is the most wonderful cough, cold and throat and lung medicine I ever sold in my store. It can't be beat. It sells without any trouble at all. It needs no guarantee." This is true, because Dr. King's New Discovery will relieve the most obstinate of coughs and colds. Lung troubles quickly helped by its use. You should keep a bottle in the house at all times for all the members of the family. 50c and \$1.00. All druggists or by mail, H. E. Buckle & Co., Philadelphia or St. Louis.—Advertisement.

A MAN of family has a big responsibility. He not only must conserve the morals and education of his wife and loved ones, but he must see to it that THEY SHALL NOT WANT. Is there a better way of helping his dear ones than by adding to his BANK ACCOUNT? It will provide against sickness and misfortune. Every man of family

## LOS ANGELES PRODUCE MARKET

The market was very active on eggs yesterday morning, dropping to 36 cents under the heavy offerings of that commodity with receipts of 484 cases on a single day. The buying started at 37, dropped fractionally and finally ended at 36 after more than a hundred cases changed hands, the majority at 36 1/2.

Butter was active, but under the heavy arrival, 54,550 pounds, the market declined to 29 cents. Prices in the north were also lower, which had something to do with the drop. There was no change in the potato market, prices being very firm and showing continued upward tendency. Receipts were 1791 sacks. Onion arrivals were 316 sacks. The market continues very steady. Sweet potato receipts were 327 sacks. The call was fair.

Letuce is fairly plentiful and a better grade of cabbage is coming into the market, although this is scarce. Tomatoes that are good enough for shipping stock sell at \$1.50 per lug. Cucumbers run anywhere from 50 cents to \$2 per dozen. Artichokes are scarce and high.

Mell Smith, the Watchmaker, has moved to 304 Main street.

—Dr. Claycomb cures chronics.

## NOTICE FOR BIDS

Notice is hereby given that sealed bids will be received by the Board of Supervisors of the County of Orange up to 11 o'clock a. m. of Wednesday, February 4, 1914, for furnishing the County and its officers with stationery for the ensuing year, and requiring that all bids shall state separately the price of each article of stationery to be furnished. Specifications for bidders are on file with the County Clerk.

The Board reserves the right to reject any or all bids submitted.

By order of the Board of Supervisors of Orange County.

**SUMMONS**  
(No. 6099)  
Action Brought in the Superior Court of the County of Orange, State of California, and the Plaintiff filed in the office of the Clerk of said County of Orange, L. M. Hartwick, Keesch & Davis, Attorneys for Plaintiff.

In the Superior Court of the County of Orange, State of California, vs. Edward M. McKinsley, Grace E. McKinsley, W. F. Harris, John Doe and Jane Roe, Defendants.

You are hereby directed to appear and answer the Complaint in an action entitled as above, brought against you in the Superior Court of the County of Orange, State of California, within ten days after the service on you of this summons, if served within this County, or within thirty days if served elsewhere. And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment in the complaint as arising upon contract, or he will apply to the Court for any other relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the County of Orange, State of California, this 28th day of November, A. D. 1913.

(Seal) W. B. WILLIAMS, Clerk. L. M. HARTWICK, KEESCH & DAVIS, Attorneys for Plaintiff.

**NOTICE FOR BIDS FOR ROAD OIL**  
Notice is hereby given that sealed bids will be received by the Board of Supervisors of the County of Orange up to 11 o'clock a. m. of Wednesday, Feb. 4, 1914, and then publicly opened, for furnishing the County of Orange with 1000 barrels, more or less, of road oil, to be used in the repair of the roads of the County, of not more than 15 gravity. Said oil to be delivered at such time as may be designated by the Board of Supervisors. Bidders to give price f. o. b. Los Angeles, Cal. A certified check in the sum of \$1000 must accompany each bid. The successful bidder will be required to give a good and sufficient bond in the sum of \$2000 with two or more sureties to be approved by the Board of Supervisors, for the faithful performance of said contract.

The Board reserves the right to reject any or all bids submitted.

By order of the Board of Supervisors of Orange County, California.

(Seal) W. B. WILLIAMS, County Clerk.

**NOTICE TO CREDITORS**  
Estate of J. Howard Bell, deceased. Notice is hereby given to all persons having claims against the said deceased, to exhibit the same to the undersigned administrator, within ten months after the first publication of this notice (which was first made on the 31st day of December, 1913), at the said administratrix, at the office of Opera House Block, Santa Ana, California, which office is hereby designated as the place for the transaction of the business of said estate.

Dated this 21st day of December, A. D. 1913.

MARY LEWIS BELL, Administratrix of the Estate of J. Howard Bell, deceased.

CHARLES H. STANLEY and E. T. LANGLEY, Attorneys for Administratrix, Santa Ana, California.

**NOTICE TO VOTERS**  
The Great Register of Orange County for the year 1914, as well as every other county in the State of California, is now being compiled. All voters who expect to participate in the general election to be held in November, 1914, and in the primary election to be held in August, 1914, must register. Registration closes for the primary election on July 25, 1914, and for the general election on October 3, 1914.

W. B. WILLIAMS, County Clerk.

**STOCKHOLDERS' MEETING**  
The annual meeting of the stockholders of the S. A. V. I. Co. will be held at the office of said corporation, in Orange, California, on Tuesday, Feb. 3, 1914, at 9 a. m. Tuesday, Feb. 3, 1914, for the purpose of electing a board of five directors for the ensuing year and for the transaction of any other business that may properly come before the meeting.

O. E. MANSUR, Secretary.

15 acres beets, west part of city, \$6750.  
20 acres near Lawyer Bell's place, \$8000

## "SYRUP OF FIGS" FOR CONSTIPATED CHILD

Delicious "Fruit Laxative" Can't Harm Stomach, Liver and Bowels

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When the little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company," Advertisement.

**For Frost Bites and Chapped Skin**  
For frost bitten ears, fingers and toes; chapped hands and lips, chafing, cold sores, red and rough skin, there is nothing to equal Buckle's Arnica. Solve, stops the pain at once and heals quickly. In every home there should be a box of this. Best remedy for all skin diseases, itching eczema, tetter, piles, etc. 25c. All druggists or by mail, H. E. Buckle & Co., Philadelphia or St. Louis. Advertisement.

**AUTO FOR HIRE**  
—M. C. Holderman will make engagements. First-class car. Prices reasonable. Phone 37111.

—Dragon Round Leaf Bread has a sweet, rich, nutty flavor, like Mother made.

AL J. JENNINGS, FORMER TRAIN ROBBER,  
IS NOW A CANDIDATE FOR GOVERNOR

Al J. Jennings, former train robber, now practicing attorney in Oklahoma, is determined the public shall endorse his reformation, and to prove that they will do so he is now a candidate for the nomination for governor. He believes if he is elected he will give Oklahoma the best, at least the most honest, administration it has known. If he fails of nomination or election he will have achieved sufficient prominence to make his law practice even more profitable than now.

The difference between Jennings and some others in politics is that he admits he was a highwayman and a thief, and they don't till indicted. Jennings is making a perfectly plain appeal to the people of his state. He was a bandit, he served time in a prison, but he reformed. Now he is going out to hunt crooks and gangs and rings in politics.

Already he has had the experience of running for county attorney in his home. He came within 500 votes of election. Considering the fact that the professional politicians of both parties worked against him, he says, he believes he was really elected. He gives the professionals, whom he had attacked bitterly, credit for ability sufficient to take up 500 illegal ballots.

## THE CITRUS FRUIT INDUSTRY

Department of Service to Citrus Fruit Growers. Conducted Especially for the Register.

Copyrighted by Reginald Brinsmead.

### RARE TROPICAL FRUITS AS AUXILIARY CROPS.

The wide range of fruits which can be successfully grown in California is out now beginning to be universally understood. Fruits new to the American and European table will in the future be produced here for shipment the world over, placing what have in the past been considered rare and costly luxuries within the reach of all and into universal daily consumption; opening up very valuable gold mines for the wide awake and progressive California fruit grower.

The insistent call for more diversified crops around the citrus belt would seem to point to the citrus orchard as being the ideal ground for many new or little known fruits, which are but now becoming recognized as possessing great potential economic and commercial possibilities.

Conditions of climate, soil and water in the citrus orchard are eminently adapted for the growth of many of these fruits, and for proving which are the varieties best adapted for local conditions. This can be done at small expense to the orchardist outside of the initial cost of planting, not only showing with a certainty unattainable in any other way the particular varieties best adapted for growing, but at the same time promising returns from what may be classed with the pioneer plantings of these fruits.

Large commercial plantings of many of these fruits is inadvisable at this time, unless the grower is prepared to take long chances, for many varieties have yet to be grown to show whether they are the ones best adapted to either local or general California conditions; although without question they can be grown successfully, past experience with

### DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoonful at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

### RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 25 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

It is—

## Rexall Olive Oil Emulsion

### It Is the Best Remedy

When you are run-down, no matter what the cause. It doesn't merely stimulate you and make you feel good for a few hours, but takes hold of the weakness, and builds you up to a healthy, normal condition.

It is a real nerve-food tonic, a real builder of healthy nerves, rich blood, strong muscles, good digestion.

It contains the Hypophosphites, to tone the nerves and give energy, and pure Olive Oil, to nourish the nerves, the blood, the entire system, and give vitality, strength and health.

It is pleasant to take, the greasy flavor of the Olive Oil having been removed.

For you who are tired out, nervous, run-down, debilitated, weak, emaciated—for convalescents—for old people—for puny children—we recommend Rexall Olive Oil Emulsion as the best medicine we know of to make and keep you well and strong.

Sold only at the 7000 Stores—the World's Greatest Drug Stores—\$1.00 a bottle. Sent in this town only by us.

### We Make Our Living

out of the drug business right here in your town. It is our duty to give you the best remedy we can for whatever ailment you may have, and business sense demands that we recommend nothing unless we know it's good.

We know Rexall Olive Oil Emulsion is good. We believe it is the best builder of health, energy and strength there is made. We know it is greatly helping many of your neighbors. We believe that it will make you well and strong again, and save you money and worry in the end.

We feel it is good business for us to recommend Rexall Olive Oil Emulsion and get you to use it, because we know you'll thank us afterward for making our confidence in it so plain that you didn't hesitate to take us at our word. We also feel sure that once you have used it, you'll be enthusiastic about it as we are and will recommend it to your friends. Read our money-back guarantee and get a bottle today.

### We Guarantee This Remedy to Relieve and Satisfy You—or Your Money Back

We don't want your money unless Rexall Olive Oil Emulsion really helps and satisfies you. If it doesn't, come back and tell us, and we'll give back your money. We believe it will protect your health—if it doesn't, the money is yours, and we want you to have it.

for the growth of the mango are more limited than is the case with the avocado.

Experiments are now being carried out, notably at the "West India Gardens" at Altadena, looking to the production of varieties adapted for commercial plantings in the citrus lands of California.

The mango possesses great possibilities for the California citrus fruit grower, situated as he is upon the cream of California's "semi-tropical" lands, and the near future will undoubtedly see it take an important place among the fruits grown in the state.

The Cherimoya, or Peruvian Custard Apple—This fruit has received little attention from commercial fruit growers in California, although trees are to be found flourishing in gardens at Santa Barbara and in Los Angeles and San Diego counties. It requires a sheltered situation, even more so than the mango. The fruit ripens the year through, like the lemon, is usually 3 to 4 inches in diameter (although some fruits of the only known named variety, the Golden Russet, weigh over a pound apiece), is heart or strawberry shaped, with a pulp of the consistency of ice cream and custard flavored with touches of pineapple and banana.

The large fruit sells on the market at \$3 a dozen, the smaller by the pound.

The Feijoa Sellowiana, or pineapple guava, is one of the most promising of the little known fruits well adapted to California citrus orchard conditions. First introduced into Europe from Brazil in 1890 by the late Dr. Edouard Andre, where it has proved a great success on the Mediterranean coast in the French Riviera, it was not until 1901 that the first specimens were brought to California. When Dr. F. Franceschi obtained some seedlings from Andre's original plant, which were set out among other places, in Santa Barbara, Orange, Redlands and Altadena, it has done well in all cases and gives promise of becoming a most important crop. Growing on a shrublike plant, it can readily be made use of around the citrus orchard, and in connection with any system of intercropping could be made a profitable crop as soon as the best varieties are well established; and here again the individual grower can best experiment with regard to the best kinds adapted to his particular location. The fruits are about the size of a hen's egg and of the same shape, green in color, with sometimes a touch of crimson. Next to the skin is a layer of granular flesh, which surrounds a quantity of white, translucent, melting pulp in which seeds are imbedded. The fruit combines the flavors of the pineapple, raspberry and banana, and is most delicious. The seeds are no larger than strawberry or fig seeds. It can be used for jams, jellies, be crystallized or be eaten in the fresh state. Its habits of growth are very similar to that of the Guava. It has not so far proved a success in Florida, although specimens have done well along the entire Pacific coast from San Diego to Oregon.

The Passiflora Edulis, or passion vine, is extensively grown in Australia, but is little known in this country. It grows well, however, under California conditions, producing a
